ADV. 3-1-29

TOMATO WILT.

EXPERIMENTS AT URRBRAE.

For some time investigations concerning tomato wilt have been conducted at the Waite Agricultural Research Institute, Urrbrae, and have resulted in the cause being discovered. The investigations are being continued with a view to discovering a remedy for the disease. The photograph shows some of the plants under observation. Krischock, photo.

REG. 2-3-29

NEW PROFESSOR OF ECONOMICS: Mr. L. G. Melville, public actuary of South Australia, photographed at his desk yesterday. He has just been appointed to the new Chair of Economics at the Adelaide University at the age of 26 years.
