## **CRIMINAL LAW**

**COLIN HOWARD LL.M.(London), Ph.D.(Adelaide), LL.D.(Melbourne)**

Hearn Professor of Law in the University of Melbourne

with the assistance on the Victorian law of theft from

**I. D. ELLIOTT, LL.B.(Melb.), J.D.(Chic.)**

Senior Lecturer in Law in the University of Melbourne

**THIRD EDITION.**

The original edition of this work, published in 1965, was the first narrative textbook of Australian criminal law.

In addition to the necessary updating and revision there is in this third edition an expansion of the theft chapter to include a separate section on the recent Victorian legislation, which follows very closely the text of the Theft Act, 1968 (England).

Although the focus of this book has always been chiefly upon Australian criminal law it is by no means confined to the Australian law. Much of the discussion is of general application as precedents and periodical literature is cited from all over the common law world.

This book has been written in a manner which is hoped will be equally useful to both practitioner and student as well as to others who may be concerned with the criminal law.

## **THE LAW OF TORTS**

**JOHN G. FLEMING, D.C.L.**

Shannon Cecil Turner Professor of Law, University of California, Berkeley.

**FIFTH EDITION**

In offering a new textbook on the law of Torts in 1957, the author adopted an altogether fresh approach both in point of substance and arrangement of the subject, thus presenting a realistic description of the modern operation of tort law. That edition was immediately accorded a most generous reception throughout the common law world, and subsequent editions have been described as great and enduring contributions to the law of torts.

In his "quest of excellence", Fleming has fixed his horizons beyond any one jurisdiction. He has drawn on the vast store of authority from many common law countries in order to increase the usefulness of this book in and beyond Australia. He has kept astride development in the intervening years and demonstrates the art of a great teacher with a deep understanding of the rapid evolution of the law. He is not satisfied with mere acceptance of doctrine or precedent, for he regards law only as means not an end; he is more concerned with the effect and operation of legal rules, their aims and reasons within the 20th century social content.

Both the practitioner and the student will find in this book a clear and precise statement of the law "as it is and as it is becoming".
