

May 4, 1937

Dear Aitkin^a,

The executors of the late W.F. Sheppard presented the Galton Laboratory with a number of unexpended offprints of his papers. Many of these appear to be of great value in a statistical laboratory. I am, therefore, writing to ask if you would care to apply for a fraction of the total number of each of the offprints available, for the use of, or distribution by, your Department.

Yours sincerely,
