My dear Fisher,

Under medical advice,  
having undertaken jobs above my immediate  
strength, I have at once to retire  
to the seaside. I am sparking a little  
in one cylinder; but rest will restore it.

Will you aid me by entering this <sup>form</sup> as  
it requires, by ~~informing~~ <sup>n</sup> looking to  
the matter of the practical exam. fee  
and total, which I have mislaid? And  
I shall be greatly sided and obliged.

It is a pity. I had some good statistical  
ideas which I wished to develop, but  
which must once again wait. I have

~~learning~~ learned at much cost that to  
keep the ordinate of will fixed high  
the ordinate of nerves must oscillate  
You will understand.

Yours sincerely,  
A. C. Latham

My dear Aitken,

I am exceedingly sorry to hear that you have been suffering from overwork, and I do most sincerely hope that, in view of your experiences, you will very seriously consider taking care of yourself.

I have completed the form you enclosed and sent it on, with your signature typed, so I hope the University authorities will have no reason to delay settling the matter.

Yours sincerely,
