

25th June, 1953.

Dear Allison,

A good many of the leading North Italian geneticists seem to have titles, but the chap I particularly advised you to contact was L.L. Cavalli-Sforza, (Istituto Sieroterapico Milanese, "Serafino Delfanti", Via Darwin, 20, Milano, or Via Fatebenefratelli, 18, Milano). I shall be most excited to hear the results of your African trip. Good luck.

Yours sincerely,
