

Meteorological Office, Stonehouse,
26/12/'43. Glos.

Dear Fisher

Thank you for your reply of
Dec. 6. Unfortunately forgot the table
at home, also I have been very busy, so
it was only today - when I am on
duty for any emergency - and none
has turned up, that I could write
the enclosed which combines our
results.

I suggest that we should both
sign it and I shall send it with a
private letter to Major General D. J.
Richardson, Director of Hygiene,
and ask his permission to have it
published in the Journal of the
Royal Army Medical Corps, of the

Editor thinks fit. I am not sure
how it should be signed, nor
with address & signature as a letter to
Nature or with name, & address as in
other journals, but I shall send
particulars and leave it to the editor to
do as he likes. I am greatly
obliged to you for applying your
methods to test my results and
I think you will agree that it is
a nice application and a thing that
looks really important.

Yours sincerely
W.R.S. Atkins.
