

Ministry of Agriculture and Fisheries,  
10, Whitehall Place,  
London, S.W.1.

T.G.2575.

21<sup>st</sup> March, 1925.

Dear Mr. Fisher,

I regret very much any inconvenience to which you have been put over the account of your research fellowship.

It was felt that your report was very much above the heads of the vast bulk of Journal readers and we could not, therefore, reasonably press the Publications Branch of the Ministry to print it.

I wonder whether you could get a technical journal to take it? Salmon, e.g., is arranging for his report on his Hops fellowship to appear in the Journal of the Institute of Brewing.

Your report has been circulated to members of the Advisory Committee on Agricultural Science following their request for this further report, so that it has already served a useful purpose. I think also it will encourage us to proceed with the Crop Weather Scheme.

Yours sincerely,

*W.R. Black*

R.A. Fisher, Esq., M.A.,  
Rothamsted Experimental  
Station,  
Harpenden,  
Herts.
