A.D. Buchanan Smith, Esq., M.A.,  
Animal Breeding Research Dept.,  
King's Buildings,  
West Mains Road,  
EDINBURGH.

Dear Buchanan Smith,

Thanks for sending me Lush's letter. I see he stresses the question of herd management which I raised to you some time ago. I think your point about butter fat is the best that can be made.

I shall be glad to meet Lush and Kildee, and of course a number of geneticists.

Yours sincerely,
