

20th October, 1956.

My dear Courtney-Pratt,

Thanks for sending back my material, and your new letter to McCrea which I will keep filed with it. I hope you will send this off.

I agree with you that a good many people will be interested if the correspondence is published, and that it may do something to clear peoples' heads, which I think is more than can be said for the last letters published in Nature.

Sincerely yours,
