

8th. December 1948.

Dear Darlington,

I have written a short note to Haldane on the suggestion to point the broadcasts as a review of Lysenko's address. I enclose a copy for your information. I gather that Research is not publishing, and if, as I suppose, Haldane will refuse permission, I think we should have some such footnote as you suggest, referring to the Listener, if, as I suppose, it is to be published there.

I am returning Frankel, so as to cause no delay, as I think I have a sufficient idea of the scope of the papers from the summaries and exhibits.

Yours sincerely,

COPY TO DR. DARLINGTON.

8th. December 1948.

Dear Haldane,

A little while ago I suggested that instead of an ordinary review in Heredity of Lysenko's speech to the Lenin Academy of Agricultural Sciences we might usefully publish the four broadcast contributions on the subject. I am writing to know if you would like your contribution treated in this way.

Yours sincerely,
