

24th December, 1946.

Dear Darlington,

As Mather is away, I am writing to you, as I want a small quantity of the *Lythrum* seed intended for the open pollinated plot at the Physic Garden for next year. They tell me that Mather had it harvested, and are expecting the seed from him, so send me 1 lb ~~of~~ from that source if you will. I want to look for the triplex purple.

Yours sincerely,
