

28th November, 1952.

My dear Cyril,

Yes, I meant to say that I was quite agreeable to the publication of Hayman's note, and indeed as you say, we have some obligation not to hold it up further.

I am very glad you are taking up the position of the National Fruit Trials and should expect you to find Rothschild helpful in the matter. I shall be glad to see the copy of their last report and especially of what you have said to Rothschild.

Sincerely yours,
