Dear Professor Fisher:

Thank you very much for the manuscript to  
GENETICAL THEORY OF NATURAL SELECTION. I was very  
pleasantly surprised to see that you have made a good  
number of changes.

Our editor has written to you separately and  
raised a few minor questions. As soon as these points  
are clarified, we will go into production. Needless to  
say you will check page and galley proofs.

Very truly yours,
