UNIVERSITY OF CALIFORNIA

DEPARTMENT OF FRENCH
BERKELEY, CALIFORNIA

Dear Doctor Fisher.

Following your kind offer to have
her M. S. S. examined with a view toward
publication, my sister instructs me
to submit herewith her discussion of
a growth of a literature, with the
Table and two graphs.

I am sorry for the long delay
before we could avail ourselves of your
interest in the matter.

I am myself still engaged in applying
statistical analysis to biochemical problems
here, and I do not as yet know when
and how I may go back to Europe.

We all here have been delighted to
hear that your cousin, the British Council
has recently been appointed.

Hoping to hear from you I wish
to remain
Most faithfully yours
J. Dufrenoy
