

29 December 1931.

Dr. L.C. Dunn,  
Columbia University,  
New York City,  
U.S.A.

Dear Dr. Dunn:

The Editor of "Nature" has accepted your note for  
publication<sup>[\*]</sup> and an added note of my own. Will you  
let me know at once if you will require any offprints,  
but in the event of your reply not reaching me in time  
I am ordering 200 for my own use and will endeavour to  
supply your requirements from these.

Yours sincerely,

R.A.F.  
*[Signature]*

[\*] L.C. Dunn (1932) A new series of allelomorphs  
in mice. Nature 129, 13a (with a note by R.A. Fisher)
