REGENT'S PARK, N.W. 8

BRIMROSE 3338

HON. TREASURER: MRS. J. B. PRIESTLEY

HON. SECRETARY: JAMES FISHER

Rook Investigation

University Museum,
Oxford.

Professor R. A. Fisher,
Whittinghame Lodge,
44, Storey's Way,
Cambridge.

14th December, 1944.

Dear Professor Fisher,

It ~~would~~^{AMS} be extremely kind of you to take all the trouble to let us have the details of the colonies in your area round Harpenden. This is really most valuable, as we have little information about areas during a number of consecutive years.

Thank you very much.

I hate to ask more when you have already given so much, but would it be possible for you to mark in pencil on the enclosed map, the sites of the rookeries? Could you mark them as numbers, rather than letters, numbering the rookeries on your foolscap sheet as well? If you could also rule the boundary of the area, that would be extremely useful too, as we have no handy copies of the appropriate 6" map.

Yours sincerely,
