

November 10, 1948

My dear Henry,

Many thanks for your letter of November 6th giving me the details of the joint meeting with the Ent. Soc. I am sure you are right to have put the time back from 3.30/ <sup>to 3 p.m.</sup> a very much better time, *from all points of view* if only it could be made compatible with the procedure of the Ent. Soc.

I am exceedingly glad that Cockayne is likely to talk, and I hope you will succeed in getting Julian. I am very glad you arranged that the time table should be strictly enforced.

*from* I suppose what I had better try to do in my own time is a general description of the kinds of problems raised by the release and recapture method, illustrating it from the Tsetse fly work and yours in the Scilly Isles and with Dominula. One cannot attempt to get very much across in 15 minutes, but the main thing will be to interest a larger number in this new development. I will let Buxton have a short resumé, I hope in good time.

Yours sincerely,

*Subject to any preference felt by Williams or Salt, I should let the speakers from the two Societies alternate.*
