

DEPARTMENT OF
ZOOLOGY AND COMPARATIVE ANATOMY,
UNIVERSITY MUSEUM, OXFORD.

February 26th 1930.

Dear Fisher,

Many thanks for your note. I certainly think it well worth while mentioning the suggestion in regard to dimorphism. I think it very important, and am much obliged to you for allowing me to do so. For all this matter is rather on hand at the moment, it would be a good thing for it to be brought forward. But do write fully yourself as soon as you can.

I am much obliged for the reprints, they are most welcome and useful. - The "Seive" is great fun by the way!

Yours sincerely,
E. B. Ford
