Dear Professor Fisher

I am very grateful to you for the help which you gave me when I was trying to write my paper on the errors of biological tests. I hope you will approve of it in its final form. I enclose a copy of it, together with a copy of another older paper which contains a discussion (p 1115) which I hope you may find interesting. Thank you for the reprints which you have sent me recently.

Will you please convey to

University College my congratulations
on its choice of a new Galton
Professor?

yours sincerely

JH Galton
