Dear Fisher,

I read a report in the  
Daily Worker today of a scene  
in which you must have been  
scandalously dealt with by  
the officials of University College.

I wrote at once to the Principal

of University College - a very strong letter, pointing out that the publication of such a story in U.S.A. would result in much harm to the University - since you probably know that ~~no~~ any other <sup>English</sup> man of Science have been engaged in work tending to promote Anglo-American cultural relations.

You have my deepest sympathy.

Yours sincerely

S.C. Harland

P.S. I leave for \_\_\_\_\_  
New York on Saturday.
