

August 1, 1942

Dear Mr Harrod,

Many thanks for your letter and for giving me Professor Clark's address and the information about Agenda. I do not easily get down to the job of making a connected statement about these things, and I have not done so for some time.

I wonder if you possess or would like for reference one or two papers given to bodies like the Family Endowment Society and the Eugenics Society about 1933 or so, of which I enclose a fuller reference. I believe I could still lay hands on copies of these, and should be very glad to do so if you it seems they might be of use to you.

Yours sincerely,
