

28th January, 1959.

Dear Bradford Hill,

Thanks for correcting my numbers and for the figures obtained on removing pipe and, I suppose, cigar smokers.

I suppose these revised data include some who smoke both pipes and cigarettes, even though predominantly pipes. Probably there is no sub-tabulation of the class who smoke only cigarettes. They might carry the change further still.

Sincerely yours,

Prof. A. Bradford Hill, C.B.E., F.R.S.
