

-----

19th February, 1957.

My dear Linder,

I am enclosing herewith proposal form for Kolmogorov. Prasanta is getting particulars of his life and work, and I suppose will fill them in when we return the necessary signatures. I do not know what other names he is collecting. I only hope the Russians understand that it is a matter of election and depends upon the opinions of Members of the Institute, and not on some sort of papal bull.

Sincerely yours,

Enc.
