

26 July 1934.

A.G.Lowndes, Esq.,
Marlborough College,
Wilts.

Dear Lowndes,

Thanks for sending me the copy of Storch's paper, which I am returning herewith. I gave your letter to Gross, and he was much interested and would like to visit Marlborough and examine the giant sperms. I hope he will arrange to see you quite soon.

Storch's paper does certainly show the absurdity of Cannon's claims in his letter to "Nature".

Yours sincerely,
