

4 June 1934.

Dear Provost,

I am enclosing herewith a report for the Galton Laboratory for the year 1933-34.

I want to get a man called K.Mather, B.Sc. Manchester 1931, who has had experience, especially cytological, at John Innes and in Scandinavia (recommended by Winge) appointed as geneticist in the Galton Laboratory at £300 a year, from October 1st. next. Are there appropriate forms to be got from the Registrar ? - and what committees or boards will the appointment be required to pass ?

Yours sincerely,
