

October 29~~k~~ 1957

C Professor H. W. Norton  
Department of Animal Science  
University of Illinois  
Urbana, Illinois

My dear Horace:

O I have just come back from Milwaukee and seen your letter of October 21. For the statistic seminar, what do you think of The Theory of Junctions in Inbreeding ?

It might interest any mathematical minded geneticists who were about.

Sincerely yours,

P Sir Ronald A. Fisher

RAF/rm
