

23,rd. October 1933.

Dr. K.Pearson,
Department of Zoology,
University College,
W.C.1.

Dear Dr. Pearson,

This form of address seems as strange to me, as it may to you. I am exceedingly glad that we shall now see you from time to time, when you find it convenient to come in.

With respect to publications. I hope to maintain, and continue your work as far as it is possible in its own form. I shall be very cautious in introducing any change.

Yours sincerely,
