

4th February, 1954.

Dear Dr. Race,

I hope we can induce you to have some nourishment with us on the 18th, and should like to propose a lunch on the day of the lecture with some people from this department and a dinner in hall to renew your acquaintance with members of the college.

If Ruth is coming of course we should want her for lunch and could, if it suited you both better, fix a dinner out of college in the evening. Shall I book a room for the night in college?

Yours sincerely,
