

6th. December 1949.

My dear Rob,

Thank you for your letter and the most informative stuff about P. I do not believe Henningsen has made out his case, though of course it is a perfectly plausible one in the absence of anything to the contrary.

I forgot to ask Monica if I might buy the girls Christmas presents, and if so, what she thinks they would like. So get her to send me a tip or two.

Yours sincerely,
