

March 20, 1942

Dear Race,

I enclose a small bottle of P.T.C. solution P₁₁. I think the solutions tend to go off when kept in corked bottles, they acquire a musty taste; but if kept in glass stoppered bottles they should keep for an indefinite period.

I am glad to know you are following up some of these cases; let me know if I can do anything else to help.

Yours sincerely,
