

31 st October 1933.

Sir H. Rolleston Bart.,
Martins,
Scotlands Lane,
Haslemere.

Dear Sir Humphry,

I am not sure how often you are
in town, or how much time you would be willing to
give to the affairs of the Eugenetic Society.

If, however, you could make it possible, I should
like some time in the future, an opportunity to discuss
the matter with you, and if possible with a few
other men of Science on the Council.

If you let me know what times, if any,
will suit, you, I could arrange a meeting here at
the Galton Laboratory.

Yours sincerely,
