

27th. Nov. 1884.

Dear Watkins,

Wingo is coming over to lecture at the Galton Lab. some time next term I expect you would want to make some arrangements for him, at the same time, to meet the Society. The date is not yet fixed, and in suggesting dates to him, I could perhaps fit the Society's convenience, if you write to me at once.

I am writing at the same time to Crane.

Yours sincerely
