Dear Wishart,                      B.A. Meetings (Aug. 23)

I have now the four titles which I had intended to send you before:

H.W.Norton: The 7 x 7 Latin Squares

W.J.Youden: Complex square designs in plant physiology and their connection with Incomplete Randomised Blocks.

C.C.Craig: Some remarks on randomisation

W.L.Stevens: Partitional functions in combinational problems.

Yours sincerely,

R.A. FISHER
