

"Et constabunt gladios suos in vomeres et lanceas suas in falces."

AGRICULTURAL COLLEGE

ROSEWORTHY, SOUTH AUSTRALIA.

Minister for Agriculture:
HON. J. COWAN, M.L.C.

THE STAFF.

Principal and Lecturer on Agriculture:
Mr. W. R. BIRKS, B.Sc. (Agric.).

Housemaster, Secretary, Accountant, and Lecturer in Book-keeping:
Mr. W. H. COWPER, L.I.C.A.

State Agricultural Chemist and Lecturer in Chemistry:
Mr. A. T. JEFFERIS, B.Sc. (Agric.), A.I.C.

Lecturer on Mathematics, Physics, and Botany:
Mr. A. J. ADAMS, M.A.

*Lecturer on Veterinary Hygiene, Physiology,
Anatomy, and Entomology:*
Mr. F. E. PLACE, D.Sc., B.V.Sc.,
M.R.C.V.S.

*Experimentalist and Demonstrator in
Agriculture:*
Mr. T. A. COLE, D.D.A.

Superintendent of Livestock:
Mr. J. E. MORROW, H.D.A.

Lecturer on Surveying:
Mr. A. T. GREENSHIELDS.

Cerealist:
Mr. F. S. OLDHAM.

Farm Superintendent:
Mr. L. W. BEAUMONT, R.D.A.

Superintendent of Poultry:
Mr. F. W. GILBERT.

Gardener:
Mr. W. G. FAIRLIE.

*Lecturer on Dairying and Superintendent of
Dairy:*
Mr. R. BAKER, R.D.A.

*Lecturer on Viticulture, Fruitculture, and
Oenology:*
Mr. D. G. QUINN, R.D.A.

*Lecturer on Field Engineering and Building
Construction:*
Mr. G. E. LANE.

Lecturer on Woolclassing:
Mr. A. H. CODRINGTON.

Assistant Chemist:
Mr. F. C. WOODS, M.Sc., A.A.C.I.

Laboratory Assistant and Librarian:
Mr. J. P. EGAN.

*Supt. of Vineyard, Orchard, and Wine
Cellars:*
Mr. J. L. WILLIAMS, R.D.A.

Mechanical Engineer:
Mr. H. R. NOURSE.

Assistant Mechanic:
Mr. W. R. HAYDON.

Assistant Experimentalist:
Mr. V. M. FAIRBROTHER.

OLD COLLEGIANS' ASSOCIATION.

Patron: His Excellency the Governor (Sir Alex. Hore-Ruthven, K.C.M.G., C.B., D.S.O.).

President: Dr. A. E. V. Richardson.

Vice-President: Mr. W. R. Birks, B.Sc. (Agric.)

*Vice-Patrons: Hon. J. Cowan, M.L.C. (Minister of Agriculture), Hon. R. T. Melrose,
M.L.C., Professor Perkins, Messrs. W. J. Spafford, and A. J. Murray.*

*Committee: Messrs. A. W. Robinson, H. Robson, W. J. Colebatch, W. J. Spafford, A. T.
Jefferis, F. H. Snook, R. Hill, W. V. Ludbrook, A. B. Cashmore, and R. H. F. Macindoe.*

Auditor: Mr. H. C. Pritchard, A.F.I.A.

Secretary: Mr. J. L. Williams.

November, 1928.

STUDENTS AT THE COLLEGE, 1928-1929.

EDITORIAL

THE PASSING OF MAN.

It is nearly three quarters of a century since Charles Darwin, after years of patient observation and deduction, published his "Evolution of Species," and "Descent of Man." These works revolutionised man's conception of his origin by presenting the theory that, instead of the sudden appearance on earth of a ready-made Adam, as portrayed in the first book of Genesis, that gentleman was evolved through countless generations of simian ancestry.

Of course the clerical fraternity of that day (Darwin's day, not Adam's) could not be expected to view such a heresy unmoved, and bitter was the controversy raging for many years between Church and University. The evolutionist, however, was gaining the day, and the churches were adapting their teachings to the new conception when Professor Weissman and others

cast serious doubts on Darwinism, by upsetting one of his main planks, that of the natural inheritance of acquired characters.

This split in the scientific ranks, of course, allowed the more reactionary clerics to gain their second wind and so lead their flocks back to the literal interpretation of scripture. Thus we have witnessed of late the pathetic spectacle of a renowned American governor banning from schools and academies in his state, all textbooks and teachings of the heretical doctrine, and even prosecuting lecturers who breathed the blasphemous word "Evolution!"

American legislators appear to labour under the misconception that the voice of authority, rather than that of conscience is to regenerate mankind.

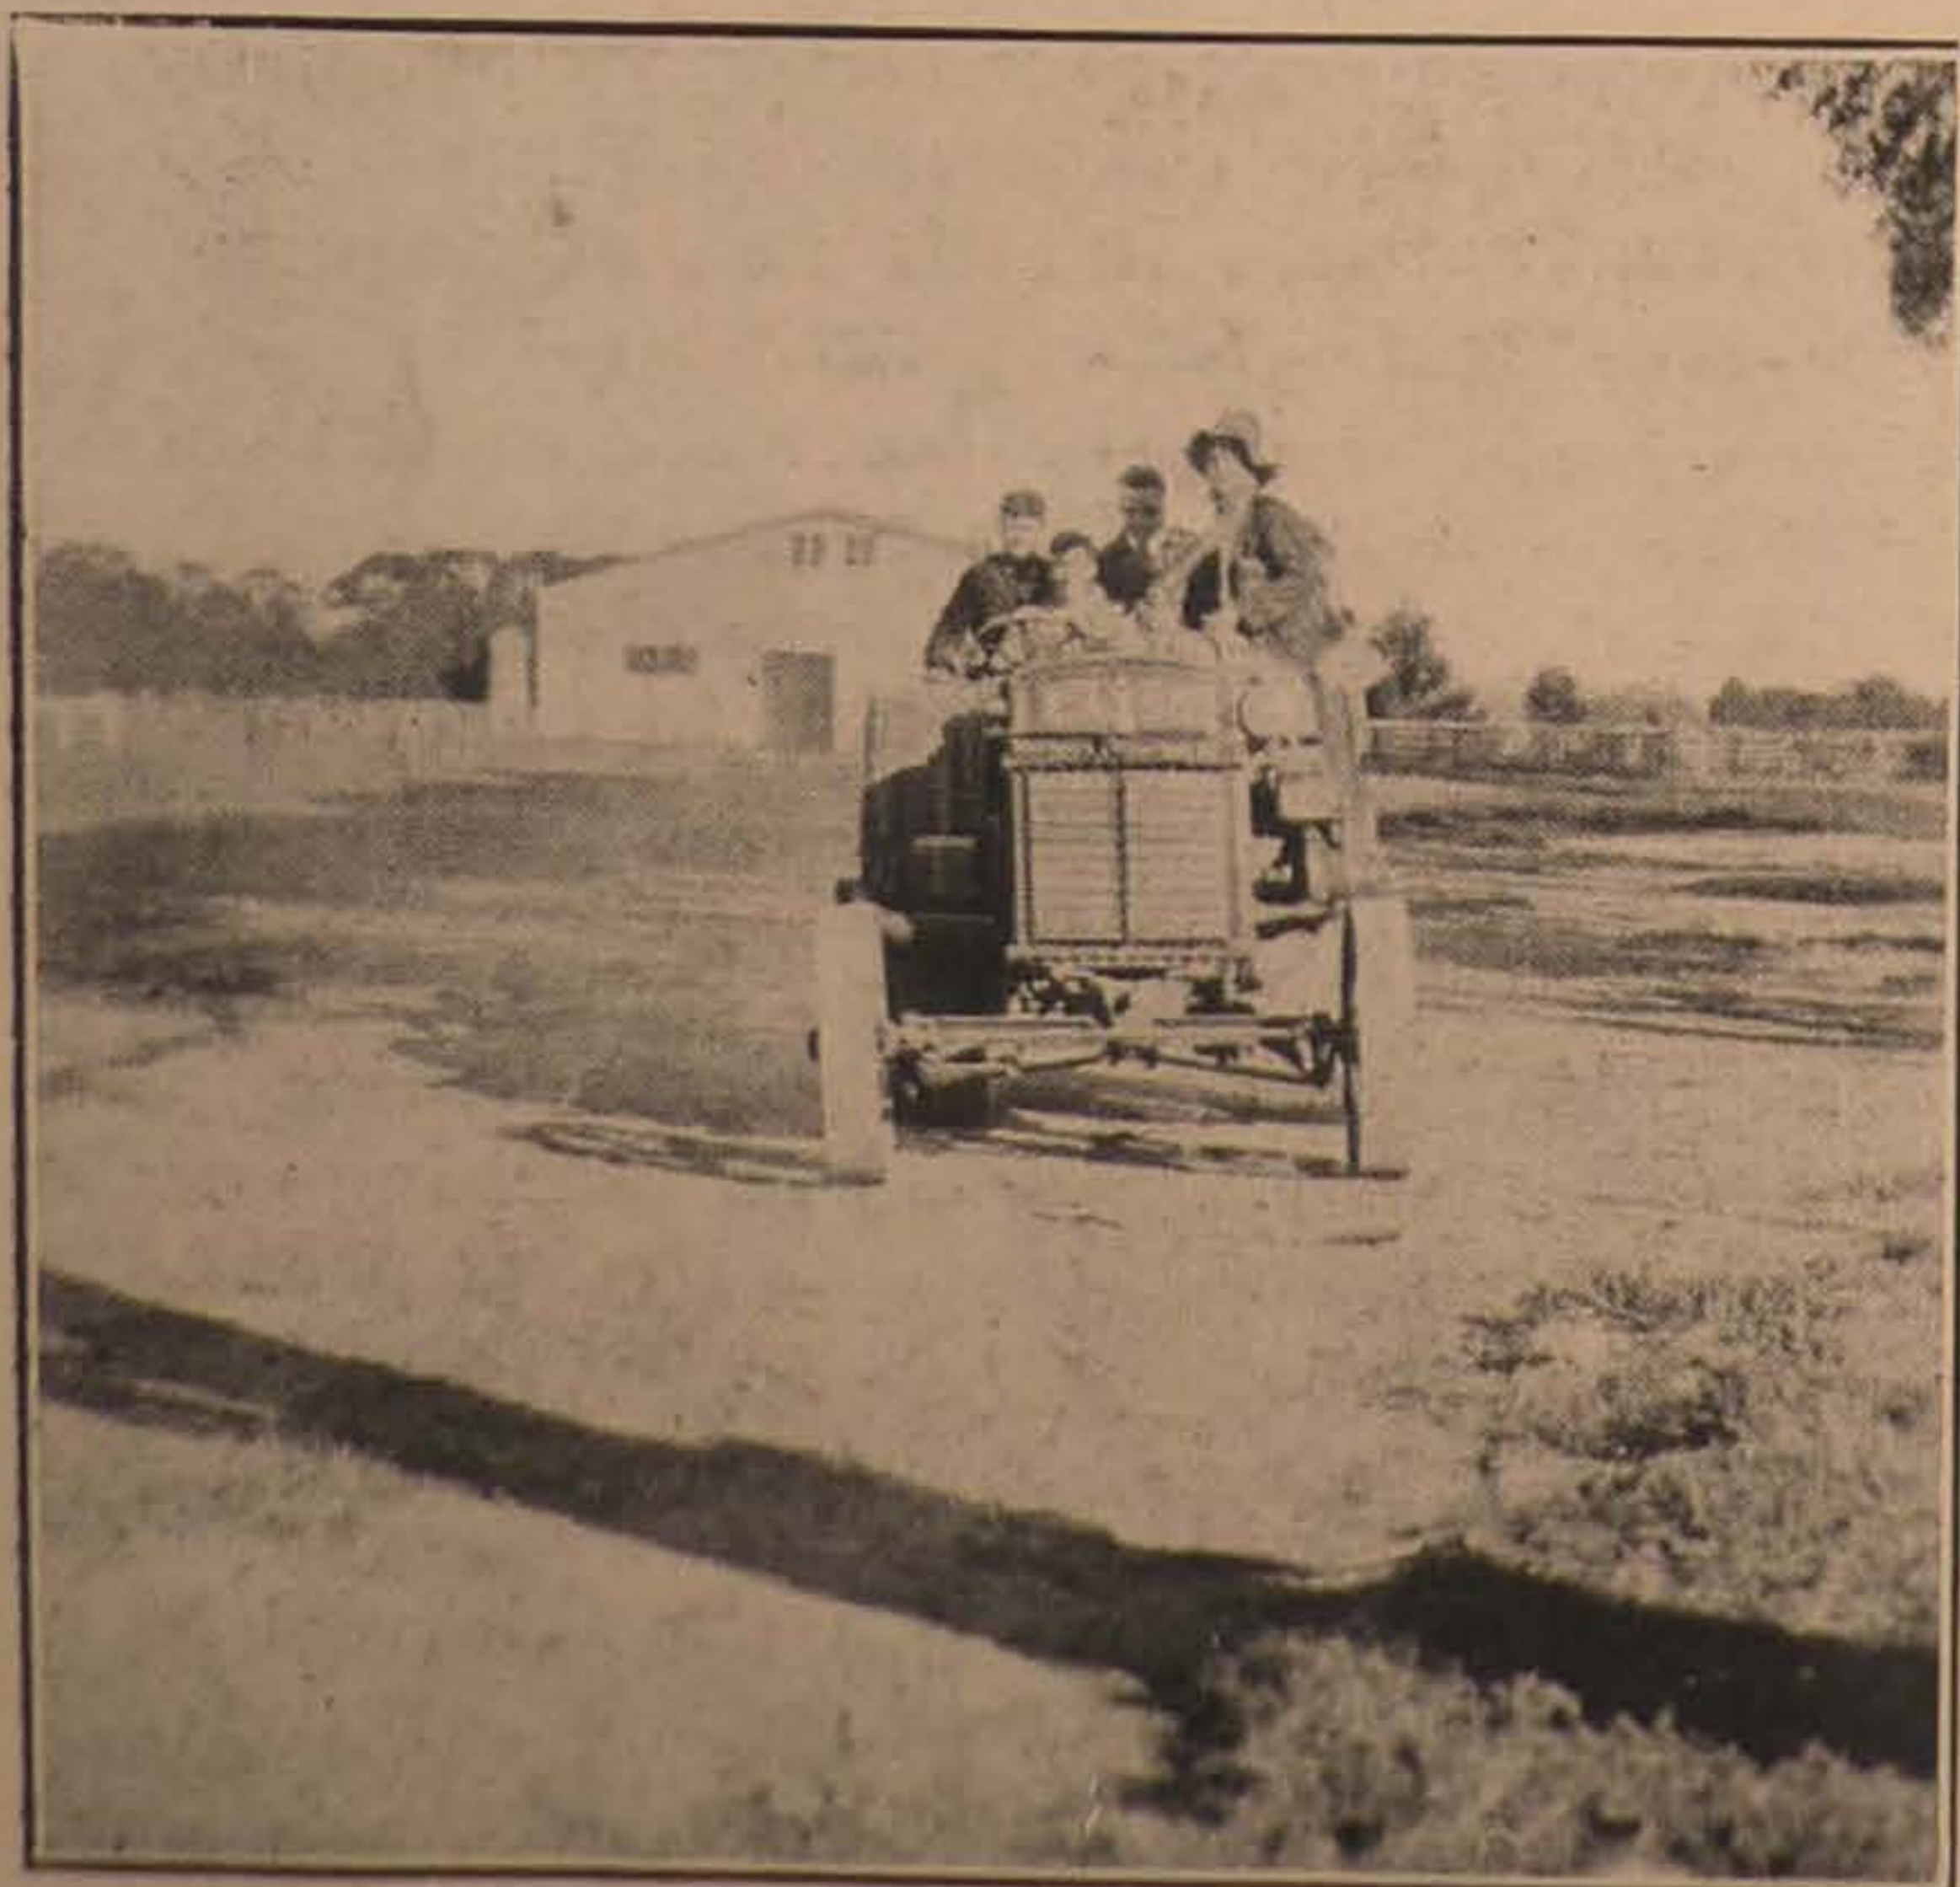

Though Darwin may not have been correct in all points of his theory, yet Evolution must be considered a principle

in all processes of nature as it should be in all activities of man, and human beings have undoubtedly evolved from some sub-human species, bearing at any rate many of the attributes of the anthropoid apes.

The race is now being advised to rejuvenate its members by means of an unholy alliance with the glands of a monkey.

Voronoff, not only claims to be able to improve stock by gland grafting, to grow finer fleeces on sheep and to make horses win steeplechases in record time, but he also asserts that the introduced or improved characters may be transmitted hereditarily. This should make men pause before submitting themselves to such an operation, even though the claims of Voronoff, with respect to rejuvenation be substantiated, otherwise, in a few generations there may arise undesirable simian propensities and characters, not even now altogether lacking in our race.

Forestry and the cultivation of nuts, may become our only primary industries, whilst jazz music and the nutty response to it, apparent in the modern ballroom, may have more justification than it has at present.

CASE TRACTOR AT WORK ON THE FARM.

CURRENT EVENTS

We have been honoured by several visitors of note during the past few weeks. Just recently the Governor, further showing the interest in the rural life of the state, which has been a feature of his activities since his arrival, visited the College, and was shown as much of the normal operations of the College as could be carried out at one time.

Unfortunately, Lady Hore-Ruthven was indisposed, and so was unable to accompany his Excellency. Earlier in the year Sir John Russell, Director of the Rothamsted Experimental Station, spent a day at the College, and impressed us no less as a raconteur than as an agriculturist of wide knowledge. His description of a football match between African tribesmen, was particularly interesting.

Old scholars will doubtless be interested to hear of pleasures they have missed in the shape of subjects recently added to the curriculum, namely, Microbiology and Soil Physics. Both will doubtless be of value in equipping scientific farmers, although, the teaching of the former is rather handicapped by lack of apparatus.

The second and third year students are rejoicing in that "obs." have been changed. We now take observations on the nearest paddocks only. Doubtless it is no coincidence that these nearest paddocks are mainly experimental. A large proportion of the farm is under crop this year, owing to the early rains making stubble cultivating, and the sowing of barley on the stubble, possible.

Several tractor firms have given demonstrations recently, which have been much appreciated by most of us (photo No. 3).

Club dances have been well attended by students. We would here like to express our appreciation of the Return Dance tendered to the College students by the Gawler Club, in St. George's Hall. Everyone thoroughly enjoyed themselves, the arrangements being excellent.

The question has been asked, "What happened to the Second Eighteen, the day after the Big Dance."

One of the dreams of the students has materialized with the arrival of the new Mayne & White chaffcutter. Last, but not least we must remember what has been going on "over the hill." The energetic members of the Swimming Committee have "made things move" and the improvements to the swimming dam are almost complete. Under course of erection at present are turning boards at the ends of the dam, a new high springboard, slippery dip, tiger leap, diving tower and Roman Rings.

STAFF CHANGES.

Since our last issue there have been several newcomers on the staff, and several departures. Mr. L. W. Beaumont, an old Roseworthian, has taken up the duties of Farm Superintendent, in place of Mr. Wilson, who has accepted a similar position at Muresk, where he is nearer home. Mr. F. S. Oldham has taken the place of Mr. A. B. Cashmore, who is at the University doing the course for B.Sc. (Agric.) Mr. Oldham also has charge of the practical demonstrations in Microbiology. Mr. S. M. Gilmour has succeeded Mr. Clifton as Assistant Farm Superintendent. The latter has taken up dairying in Western Australia. Mr. S. E. Whicker, who, like Mr. Gilmour, holds a Diploma of Dookie Agricultural College, is assisting Mr. Morrow in the Livestock Section.

APPOINTMENTS.

L. W. Beaumont (1917) has been appointed Farm Superintendent.

On leaving the College, Mr. Beaumont held the position of Farm Manager, at the Magill Reformatory and later was engaged in extensive dairying pursuits at Mannum. Following the slump in the butter prices exported to Great Britain, occasioned by the recovery of European nations after the war, Mr. Beaumont became interested in grazing, coupled with stone contracting work, and was thus engaged before his appointment to the College staff.

T. A. Cole, a diploma holder of Dookie Agricultural College, Victoria, has been appointed as a successor to Mr. R. C. Scott. Reference to this appointment was made in the columns of our last issue.

S. M. Gilmore and S. E. Whicker, both of Dookie, have been appointed Assistant Farm Superintendent and Assistant Stock Superintendent, respectively.

J. E. Morrow, a diploma holder of Hawkesbury Agricultural College, N.S.W., has been appointed Livestock Superintendent. Mr. Morrow served with the A.I.F. and on his return was engaged in grazing pursuits in N.S.W. and also held the appointment of Wool Expert at Hawkesbury.

F. C. Woods, M.Sc. has been appointed as a successor to A. L. Pearce, B.Sc., then Assistant Chemist. Mr. Woods is a graduate of the Melbourne University.

F. S. Oldham has been appointed Cereal vice. A. B. Cashmore resigned. Mr. Oldham holds a diploma of Agriculture, gained in W.A., and for some time after his return from the war, worked an irrigation block on the River Settlements.

We take this opportunity of welcoming these men to the Staff.

IMPROVED CURRICULUM.

Under the able administration of Mr. Birks, the curriculum has been considerably improved. Increased facilities have been placed at the disposal of students for obtaining first-hand experience in the practice of farm mechanics and repairs etc. With this object in view the Mechanics' shop has been brought up-to-date, and during farm classes, students now have the opportunity of trying their skill or lack of skill, as the case may be.

The third year instructional trips have been of a more varied nature than hitherto and have included such places as the Metropolitan Abattoirs (stock valuing competitions); Sewerage Farm, Islington Work Shops, The Wool Stores, A. M. Dawkins, Adelaide Chemical Works, Farmers' Union Butter Factory, Elder, Smith & Co. Skin Stores, etc.,

Shearers (farm machinery), H. H. Shillabear, Dawkins Bros. and Buckland Park. These trips together with the excursion of the football team to Victoria, help considerably to broaden the mind and outlook of students participating in them.

Tractor trials and demonstrations now are also the rule and the student has the opportunity of gauging fairly accurately the advantages or otherwise of power farming over horses, and farther, if he decides on power farming, which machine is likely to suit his requirements. I might here make reference to the performance of the John Dere tractor, of which some reference was made in the last issue.

The John Dere underwent a 24-hours officially supervised ploughing trial in Fletts. The 24-hours included 52 minutes idling time. Area covered, 83 acres, depth of ploughing, $4\frac{1}{2}$ inches. Fuel consumption, $1\frac{1}{2}$ per acre.

The marks allotted for outside work are also receiving consideration and it is being endeavoured to place them on somewhat the same basis as the marks allotted for theory.

Numerous other improvements are slowly but surely taking place to make student life more congenial and interesting, and it is hoped that these improvements will meet with the success they deserve.

The Farmers' Winter School, this year was a more pronounced success than in previous years, the number attending being somewhere in the region of fifty scholars.

The tractor and machinery trials added greatly to its attraction, from the farmers' point of view.

A big percentage of the lecturers at the School were drawn from the ranks of Roseworthy men, which goes to prove the importance of the College to the farming community of the state.

The fact that one of the members of the Farmers' Winter School decided to stay on as a regular student, augers well for the success of the scheme.

Old students will be interested to learn that the football team has again linked up with the Gawler Association. We

decided an exceptionally good team and were very unlucky to lose to South Gawler by three points, thus keeping us out of the final four and instrumentally letting Souths in the four. The Souths should make a bold bid for the Premiership again, so our form may be gauged on this, our last match in the Gawler Association for the year.

The record of some of the cows in the College pure-bred Jersey herd, under the expert supervision of Mr. R. Baker, may be of interest to Old Students.

Dawkins III of Turretfield, 8236 A.J.H.

B. Aged cow. Period 273 days. Milk 8733 lbs. Av. test 6.95%. Butter fat 606.62 lbs. Commercial butter 730.84 lbs.

Roseworthy Princess VIII 10605 A.J.H.B. Aged cow. Period 273 days. Milk 10047 lbs. Av. test 5.20%. Butter fat 522.71 lbs. C.B. 629.76 lbs.

Roseworthy Erudite 17922 A.J.H.B. Junior 2 year old. Period 273 days. Milk 5691 lbs. Av. test 7.71%. Butter fat 438.52 lbs. C.B. 528.33 lbs.

Roseworthy Erudite as a junior 3 year old has produced 513.11 lbs of butter fat in 240 days. This shows promise of being a record for a cow of this age.

Following our usual practice, we submit these notes:—M. Eastwood 1885. Proprietor of the Tamworth Carrying Company, N.S.W. By my request, Mr. Eastwood provides us with some refreshing information concerning his career since leaving the College. Mr. Eastwood deplores the fact that there is too much "I" about the information submitted, but he may be assured that it will not be viewed by old students in that light. Mr. Eastwood is one of a very few who is endeavouring to keep this section of the College magazine as interesting.

He writes as follows:—

I have to acknowledge the receipt of your letter of the 10th inst., desiring my assistance in furnishing you with brief notes of my career, and those of my contemporaries with whom I may have come in contact, I may say that my experiences and events have been

rather varied, and only slightly connected with agricultural interests directly, and that being the case, although my wanderings have covered a good deal of the Commonwealth, my memoirs may not be of much interest to your readers, certainly not from the agricultural point of view.

Western Australia has been the scene of most of my experiences. From 1889 to 1893 in being engaged in agricultural and pastoral pioneering work, and during that time I travelled over and inspected a considerable portion of the land on each side of the Great Southern Railway, from Albany to Beverley, it's then northern terminus.

Coolgardie was discovered by Bailey and Ford in 1892, and early in 1893 I made my first trip through, and later started business in Coolgardie as auctioneers and produce merchants firm, Climie Eastwood & Coy.

During the 20 years of Goldfield life, I traversed the country, east and west, from Coolgardie to Kurnalpi, and was present and took part in many of the most important Goldfield rushes and other exciting events of the time.

Being continually on the Fields till 1912, I have considerable knowledge of its early history.

If this knowledge would be of any value to the "Student," I could, perhaps, from time to time give you a brief description of some of the more interesting incidents at which I have been and taken part, or a short detail of the trips across the country from Albany to the goldfields.

I noticed in your last issue of the "Student," you deplored the fact that for want of information from old students that part of the paper was fast becoming uninteresting, and in danger of being eliminated.

I for one, would be grieved to see that happen.

Leaving West Australia in 1912, I have been carrying business in N.S.W. for a short time as stock and station agent at Muswellbrook, and later at the Tamworth Carrying Coy., Tamworth.

M. Eastwood.

IMPLEMENT SHED.

THIRD YEAR NOTES

Set once more, Oh Ye Laurels,
And once more, Ye Myrtles brown,
With Ivy never sere,
We come to pluck you berries harsh and crude,

i.e. crudely endeavour to write worthily of the mighty Third Years' activities. We have proved worthy of our steel in courageously and with smiling faces, surviving the tortuous ramblings of that "stilty contraption" which the poet in our midst described as "the little Morris truck." Notwithstanding the terrors we have gone through as hinted above, we have had some very instructive trips of commercial, manufacturing and pastoral interest. Last but not least among these was a trip to Gawler River, where the farms of Dawkins brothers were visited. The trip was satisfactory from many points of view.

We wish to congratulate A. K. Drew on gaining a color for football, and W. E. Meier for tying for the Cup, on Sports Day.

New amusements we have adopted are Microbiology and Soil Physics. Our main trouble is to remember the rule which states that Teleutospores must not be confounded with the Hygroscopic Coefficient.

We have been entrusted with a paddock, known as the Third Year Paddock, in which we are endeavouring to grow Sudan Grass and in which strange things are, if reports are true, happening, and moreover, seem likely to happen in the future.

A STUDENT'S IDEA OF A PLOUGHING LESSON.

A new mental contortion for us is Aviculture, and one of our members, noted for his interest in all matters pertaining to fowls, is busy working out a balanced ration, which is very necessary as fowls have only two legs to stand on. The basis of his ration is.—

2 ozs. of arsenic to 1 strychnine.

By using this he maintains that the balancing is easy, as the two legs are dispensed with.

Having thus plucked a few berries, we will leave the ivy until next time.

SMALL DANCE.

The Annual Small Dance, was arranged for Tuesday, May 29th, and accordingly arrangements were set on foot.

For a week prior to the 29th, the dining room presented a busy scene for about two hours every night.

Guests were invited from the surrounding districts, with a few from Adelaide. There was a large attendance, about two hundred guests being present.

Decorations in the Main Hall were prettily carried out by the committee

who are to be commended for the success of the evening.

The Supper Room was decorated with flags, which were draped around the walls in most attractive style. Vases of Autumn tints were set about the tables relieving any suggestion of drabness created by the flags.

Mr. Birks and Mrs. Cowper received the guests at 8 p.m., and the dancing commenced at approximately 8.15. Good music was supplied by Schwerdt's orchestra, with extras by an orchestra of local talent.

A first class supper, which left nothing to be desired, was arranged for 10.30. The only drawback being the congestion caused by the size of the room.

Any shortage of claret cup was forestalled by mixing it with a large portion of lemonade which successfully prevented the reservoir from running dry half-way through the proceedings, as has occurred before.

The Dance finished up at about 1 a.m., after a most satisfactory evening, both inside and out.

2nd YEAR NOTES.

We arrived back this year with a far better feeling in the abdominal regions, with our numbers increased wherein we do not do so much with early rising. We learnt that a tractors' combustion engine must have a spark. This is also applied to R.A.C. very fully represented by the 2nd year, which makes things fly, especially playing rigger matches on the front lawns. (Wherein one Rose by name found himself imbedded in a rose bush). Another bright spot is Laurie's room, which easily equals the Art Gallery. The big Ballarat pigeon man shammed a very comical cramp in the throat, wherein he was severely reprimanded, in fact, "shelled."

The 2nd years efforts were paramount in erecting a big pole for Roman rings at the dam for this purpose. The 3rd year was magnificently represented by Dave.

We advise those contemplating Melbourne trips to be amply supplied with £.s.d., so that they may arrive back in Adelaide with more than 3½d. in their pockets. We should like to say more about the Melbourne trip, but actions might be brought against us.

The slaughter house lived up to its name when it entertained the 2nd years. Our only regret is expressed in sorrow for all sheep that came under our hands.

The appearance of the vineyard has well er changed since some ferocious youths with saws and secs. were set loose in it, er, ah, some spurs had er buds er and some had er er no buds.

The modern methods er are er quite remarkable, er, in fact, er, quite different from orthodox methods. Small showers of paddy melons struck "various members of the troupe." Whereupon, er, retribution followed.

Honour Section.

(Being the congratulations.)

1. The whole of the 2nd Year on winning the Inter-Year Shield on Sports Day.
2. A. L. Gerken for tieing for the Cup.
3. On the members in the 1st 18—
L. V. Spencer, T. V. Winnall, R. N.

OUR OVAL AND TENNIS COURTS.

Mellor, J. G. Heggie, F. von Doussa, J. L. Cuthbertson, J. McM Glynn, and H. Reschke.

L. V. Spencer—3rd for best player in the Association.

F. von Doussa—Best fielder in the last cricket season XI.

W. Ellis—Sec. of 2nds 18.

F. K. Parsons—Manager for Melbourne trip.

Joe Glynn, on his attempt at a moustache, and ourselves on attempting to write up 2nd Year notes.

THE BIG DANCE.

From the beginning of the term, August the seventeenth was the date foremost in every mind. As the great day approached, excitement grew intense, until at last the day arrived. Doubtless, the sports aroused much enthusiasm, especially among the fortunate competitors, but all minds turned to the greater event, the Big Dance.

At an early date, preparations were begun on the floor, and all helped in some way to bring it to the right condition. Rasps and sandpaper were in action, early and late, guided by willing hands and minds, for all realized the importance of the occasion.

The decorations, which were admirably arranged, were left in the capable hands of the Committee, who worked untiringly to make the evening the success it undoubtedly was.

Such music, such a feast that followed, such pleasure, made those eyes occasionally anxious which kept fleeting Time

under survey. At least, however, his venerable scythe could be no longer denied by most, who were tumbled into bed for a few short hours of sleep, some unfortunates to be roused early to attend to bovine, equine and other animal needs, while others lived the night again in blissful slumbers until breakfast time.

When the guests had been heartily, and with many a sigh farewelled,—

“The students sleepward plod their weary way,

And leave the world to daylight and to others,”

with further dreams, this time of twelve months hence.

FIRST YEAR NOTES.

Although few in number, we are representative of South Australia, Victoria, India, and the Old Country. Twit and Geoff hail from Victoria. A youth with a fine tenor voice (at least it ought to be by the way it is soothingly aired at bedtime) represents India. Dobbin (get up, Togo) is a sample from Britain. We are what might be called a “Dancing Year.” The Gawler dances have been well attended by us, and we greatly enjoyed the small dance, and the big dance was so enjoyable that we are eagerly looking forward to next year’s festivity.

We heartily congratulate Kimber on his election as Councilman, representative on the dance, tennis and swimming committees, also Hooper, on being elected vice-Councilman, representative on the sports and football committees, and Durkin and Oppatt, on their election, the former to the entertainment committee, the latter to the sports committee. We are not very well represented in the XVIII., only Grub Hooper and Snake Kimber; and Oppatt, Wiese, and Hancock in the second XVIII., to whom we extend our congratulations.

We had some good luck in the sports. Hancock won the sheaf tossing, breaking the record, and Blacker did very well in getting second place. In the tug of war we did very well to beat the third year. We do not know which

team was the more surprised. We lost to the second years on the third pull, after being one all. Jack Craddock did very well to finish fourth in the mile.

THE FARMERS’ WINTER SCHOOL, 1928.

A record number of 51 men attended the Winter School for Farmers, held at the College this year, and they made the gathering a great success.

The impression they gained, on their arrival, of the fine College building and its surroundings was not allowed to fade, for, at the opening ceremony, at which the Minister of Agriculture presided, they were confronted with many prominent men of agriculture, who gave appropriate addresses introducing the farmers to the work of the institution.

During the nine days of their stay at Roseworthy, the members of the school had the opportunity of gaining knowledge in all branches of agriculture, and a few other subjects having a bearing on agriculture.

The instruction given each day consisted of lectures and demonstrations on agricultural subjects, the principal feature of the latter being the operation of the tractors in the field. This demonstration was attended by a crowd of interested farmers from many districts.

The social life of the school was well attended to in the forms of a football match, a trip to Barossa Reservoir, and a visit to the Roseworthy branch of the Agricultural Bureau, which was holding its Annual Social.

The members of the School tendered a smoke social to the College staff and students, as a fitting wind up to their sojourn here, and presented an enlarged photo of those present at the opening ceremony. Many talented artists were discovered and the programme was of a high order.

All regretted the necessity for the completion of the Winter School, and it was with heartiest wishes for further meetings with its members that the College folk saw them depart.

CRITIQUE OF TENNIS TEAM.

Harris, Vice Captain, (By Captain):—
A consistent player who started poorly,

but rapidly improved and struck form towards the end of the season. Has a good stroke on both fore and backhand, but could improve volleying and smashing. Places and times his shots well.

Marrie:—Has improved vastly during the current season and played very well all the way through. Serves well and has a very accurate placement in volleying and smashing. Should improve backhand and ground shots.

Hayward:—Plays well on his day, but is not as consistent as he might be, being erratic in all his shots. Has a powerful first service when it comes in, but should particularly improve his second service and backhand.

Couche:—Has a style of his own, but there is room for improvement. Should pay more attention to the game. Weak generally, but makes the effort to play a steady game.

Manuel:—Was a weak player, but improved with practice. Has a very fair notion of the game, but fails to execute his shots with the necessary accuracy.

Winnall:—Plays a weak single, but does better in doubles. Has improved with practice, but should develop more style. Has a weak service and drives erratically, volleying being about the best stroke in his game.

Wilson, Captain, (By Vice Captain):—Has played creditably for the team throughout the year. Plays a slightly better game in doubles than singles, though is very steady and has a powerful, winning first serve on his day. Shows very sound placement and his network and smashing is good. Has good shots on backhand and forehand, and is very quick on the court.

CRICKET NOTES.

Season 1927-28.

This season the team was not as successful as in the preceding season, but nevertheless succeeding in coming second to South Gawler on the premier-ship table. Next season, therefore, should see a strenuous struggle for absolute possession of the F. E. Barritt Shield, to be won three times (not

necessarily in succession), as South Gawler and the College have each won twice.

At a meeting of students, L. S. McKay was elected captain and A. K. Drew vice-captain, while the committee consisted of—III. Year representative, C. W. Hooper, II. Year representative, J. F. L. Wright, I. Year representative, L. V. Spencer, with the captain and vice-captain. The selection committee consisted of McKay, Drew and Wright, while the duties of secretary were handed to Drew. The following were allotted "Colours" for outstanding members of the team:—L. V. Spencer, S. J. Torr, J. F. L. Wright, A. K. Drew and L. T. McKay, while badges were voted to Jones, Mutter, Parker, Hooper, von Doussa. The honour of being the best fieldsman (by vote after each Association match) was won deservedly by F. von Doussa, who fielded brilliantly at point throughout the season. Wright and Torr are to be congratulated on scoring centuries during the season, and Wright, as well, on his rapid improvement in bowling towards the end of the season, when he took 16 wickets at the cost of 11.4 runs each off 61 overs. Results of matches played:—

Association Matches.

College v. Smithfield.

Played at Smithfield on October 22 and 29. McKay won the toss and sent Smithfield in to bat. Thanks to hard hitting by Day, 74, and Burford, 86, they hit up 270 for the loss of 8 wickets, when the declaration was applied. On the following Saturday, R.A.C. failed miserably, except for Wright, who made a fine 61, and were all out for 118. Smithfield thus winning by 152 runs on the first innings.

Scores:—Smithfield (1st inns.), 270 for 8 (dec.). Williams 1-34, Hooper 1-35, Jones 2-35, McKay 0-65, von Doussa 1-27, Torr 1-31, Cashmore 0-5, Parker 0-8. College (1st inns.)—Williams, b. Riggs, 2; Spencer, b. Riggs, 12; Cashmore, b. Riggs, 3; Wright, l.b.w., b. Twelftree, 61; Drew, c. Bowman, b. Riggs, 14; McKay, c. Judd, b. Twelftree, 17; Torr, b. Twelftree, 0;

Parker, b. Bain, 0; von Doussa, b. Twelftree, 0; Jones, c. Twelftree, 0; Jones, c. Twelftree, b. Bain, 0; Hooper, not out, 2; extras, 7; total, 118.

Smithfield won first innings by 152 runs.

College v. Unions.

Played at College on November 5 and 12. Unions won the toss and decided to bat.

Unions, (1st inns.), 74. Shepherd, 1-9, Jones, 3-21, Torr, 4-22, Parker, 2-15,

Unions (2nd inns) 134. Shepherd, 2-25, Jones, 1-29, McKay, 0-28, Torr, 0-11, Hooper, 0-25, von Doussa, 4-7.

In the College innings, Torr gave a very sound and patient display for 101, while Wright batted in his usual bright style for 57.

College (1st innings)—Spencer, c. Kelly, b. Sanders, 17; Torr, not out, 101; Mr. Cashmore, c. Kelly, b. Pring, 9; Wright, b. Donaldson, 57; Drew, c. Todd b. Sanders, 9; McKay, c. and b. Alexander, 7; Parker, c. Alexander, b. Wasley, 18; von Doussa, not out, 3. Extras 10.

Total—231-6 (dec.)

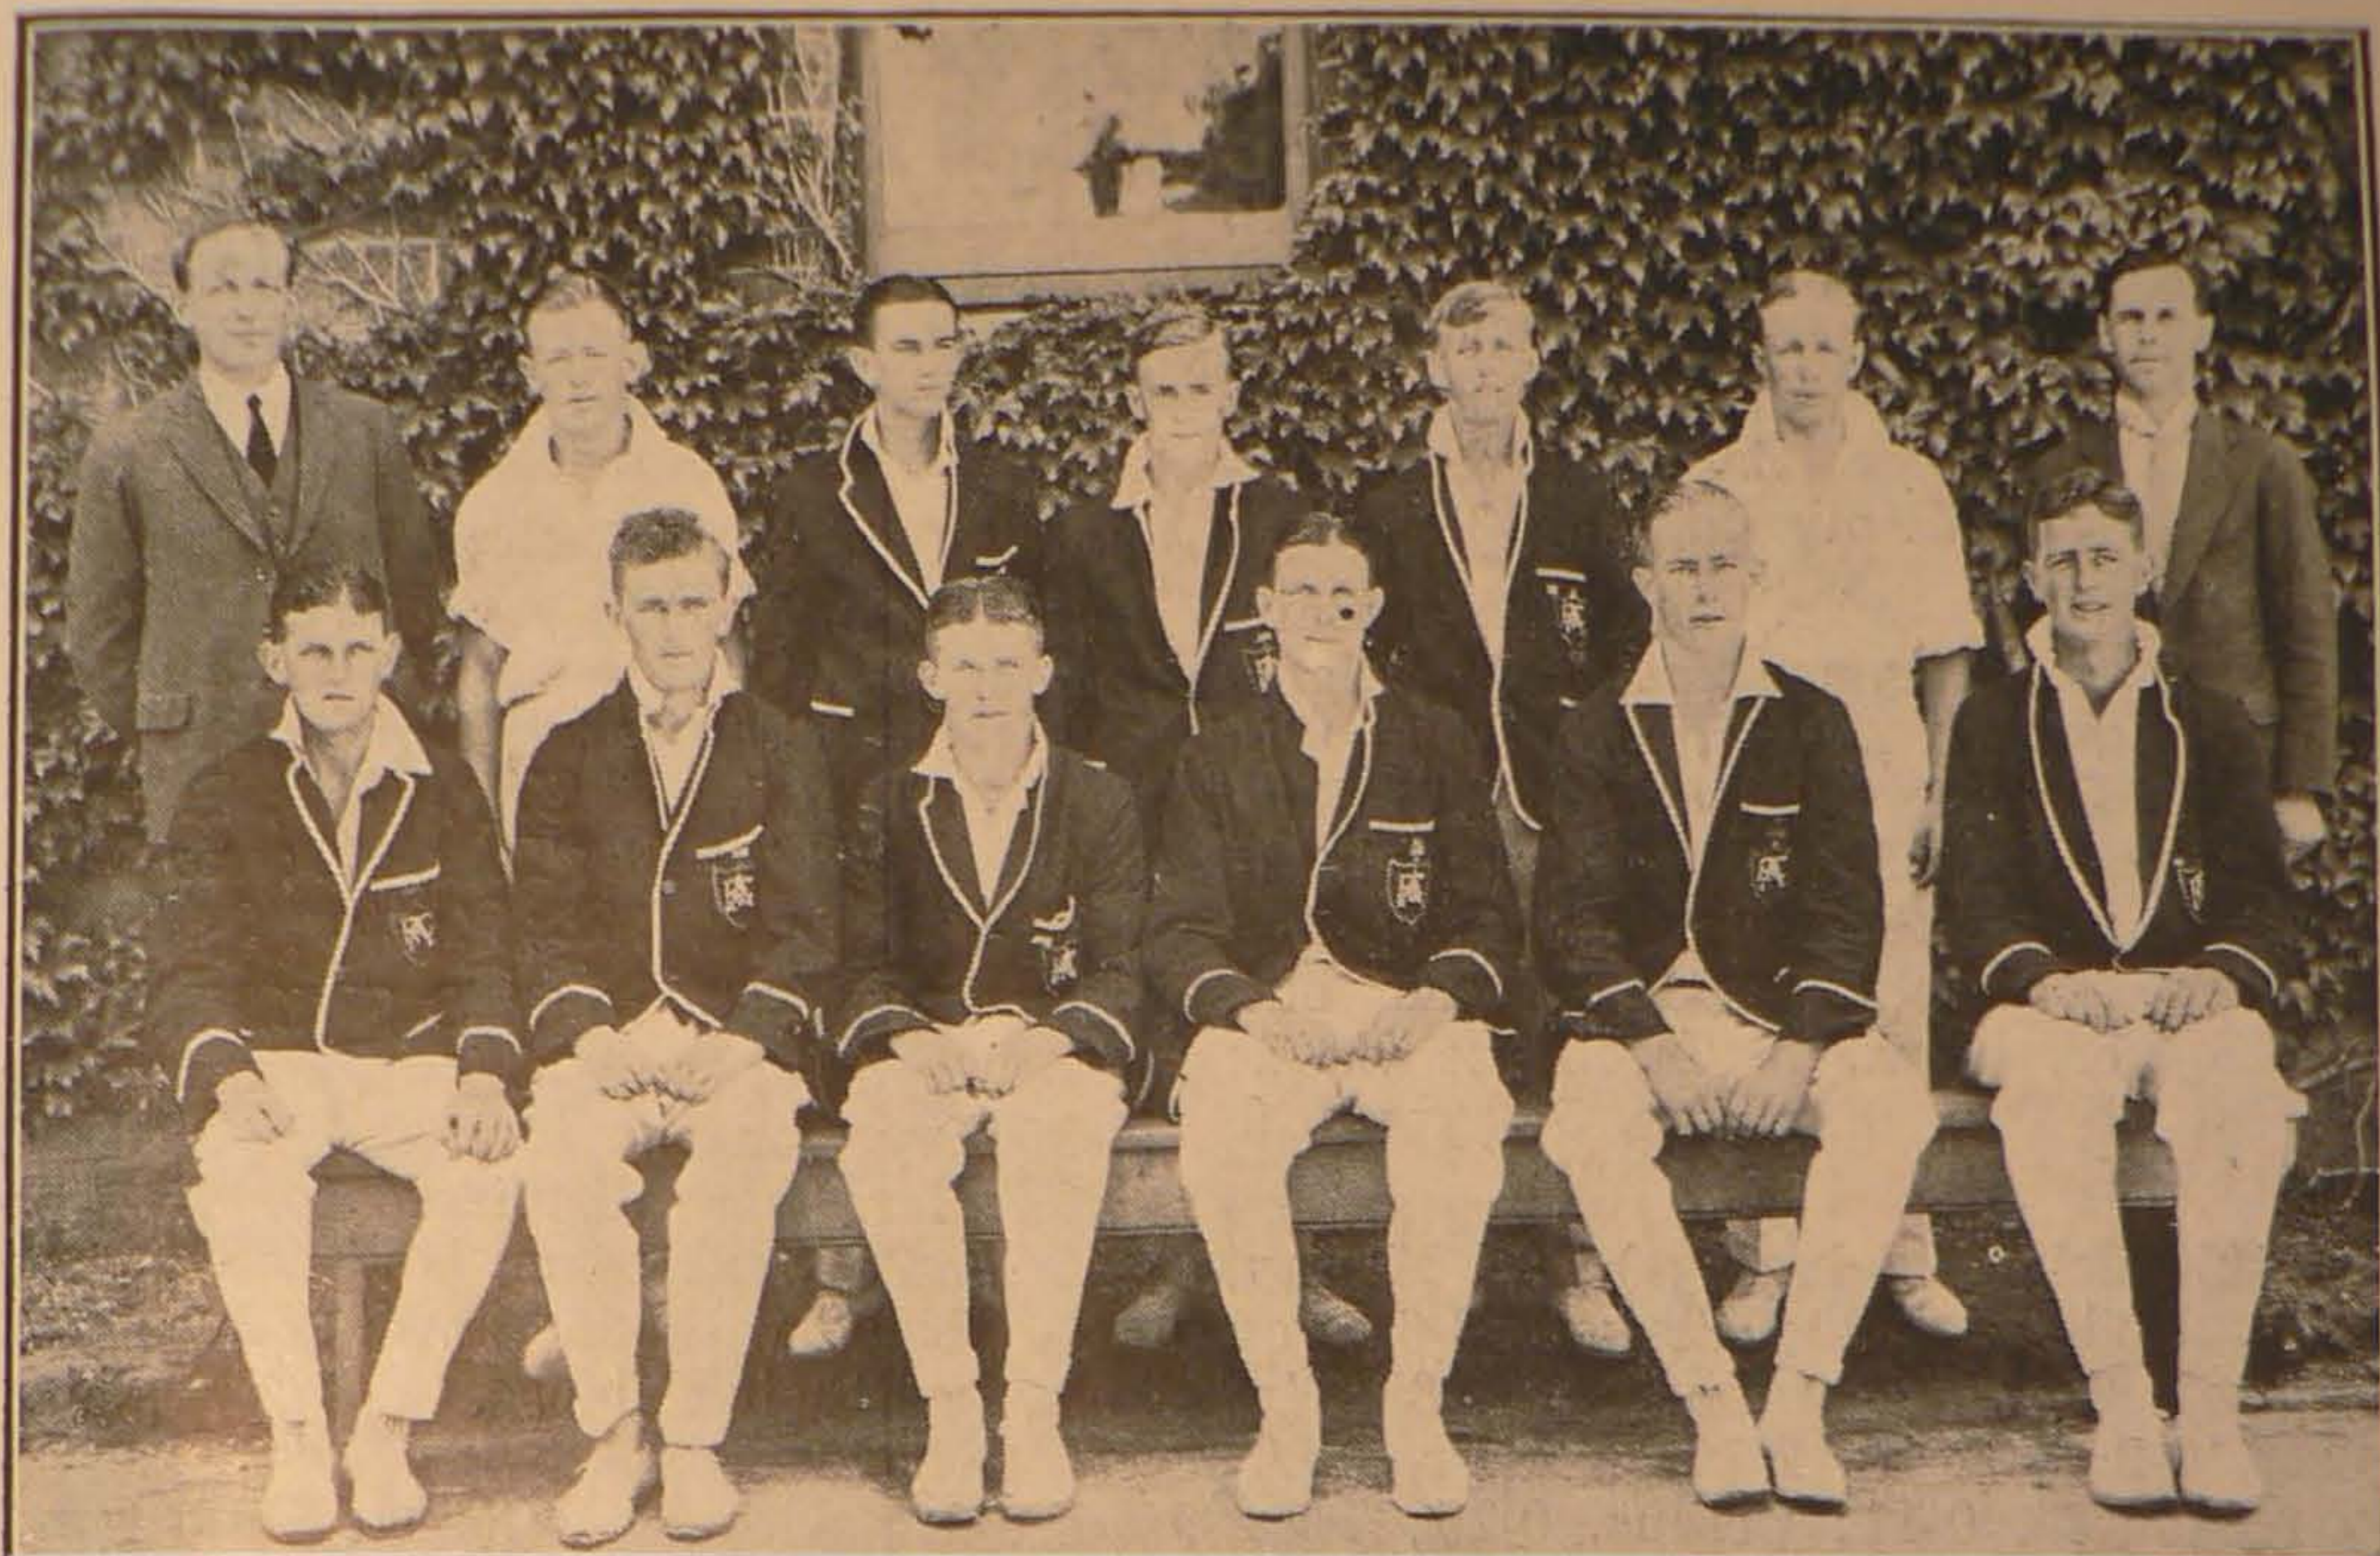

Collegs won by inns. and 22 runs.

COLLEGE v. SOUTHS.

Played at College on November 19 and 26. Souths had first use of the wicket and made the good score of 257. College could only reply with 166, Spencer giving a very fine display for 60, while McKay made 36 by hard hitting.

Souths (1st. Inns, 257). Shepherd, 0-21; Jones, 1-34, von Doussa, 2-34; Torr, 0-18, Parker, 5-53; Williams, 1-25, McKay 0-18, Wright, 0-21. Souths (2nd. inns) 30—4 wkts. McKay, 3-15, Wright 1-9; Spencer, 0-5.

College (1st. inns.) Spencer, b. Noble, 60; Torr, b. Nottle G., 2; Mr. Williams, c. Howard, b. Noble, 6; Wright l.b.w b. Noble, 11; Mr. Cashmore, c. Noble, C. b. Noble, 6; Drew, c. Howard, b. Nottle T., 4; Parker, run out, 1; McKay, c. Howard, b. Nottle G., 36; von Doussa, c. May, b. Nottle G., 16; Jones, b. Nottle, G., 5; Shepherd, not out, 1; extras, 18. Total 166. Souths won on 1st innings by 91 runs.

CRICKET TEAM, SEASON 1928.

COLLEGE v. YATTALUNGA.

Played at Yattalunga on December 3 and 10. The home team batted first, and made only 115. Rudall top scoring with 44 not out. College replied with 246-9 (dec.) Spencer and Torr batting well for 50 and 63 respectively, and giving the side a good start. Yattalunga at their second attempt lost 5 for 120. Scores:

Yattalunga (1st inns) 115. McKay 2-29, Jones, 2-27, Wright, 1-6, Parker, 1-18, von Doussa, 3-15, Hooper 0-1. Yattalunga (2nd inns) 120-5. Spencer, run out, 50; Torr, c. Rudall, b. Middleton, 63; Wright, c. McKenzie, b. Smith, 2; Drew, run out, 8; McKay, c. Crase, b. Middleton, 32; Mr. Cashmore, run out, 4; von Doussa, c. McKenzie, b. Rudall, 14; Parker, b. Rudall, 0; Mutter, not out, 11; Jones, l.b.w., b. Barritt, 14; Hooper, not out, 34; extras 14. Total, 246-9 (dec). College won on 1st inns. by 131 runs.

COLLEGE v. UNIONS.

Played at College on January 7 and 14. Unions had first use of the wicket Unions were dismissed for 96, thanks to the destructive bowling of Wright, who took 5-11. College replied with 254 for 7 (dec.) of which Wright played a fine innings of 123. Unions were dismissed in the 2nd attempt for 41 runs.

Unions (1st inns.) 96. McKay, 1-5; Jones, 1-18, von Doussa, 0-20, Parker, 3-31; Wright, 5-11. Unions (2nd inns) 41. Wright, 2-5; Jones, 2-15 McKay, 1-18. College (1st. inns.) Spencer, b. Hoffrichter, 54; Torr, run out, 8; Wright, st. Kelly, b. Sanders, 123; Drew, run out, 8; McKay, c. Tipe, b. Alexander, 25; Mr. Williams, c. Kelly, b. Alexander, 7; Mutter, st. Kelly, b. Saunders, 4; Mr. Cashmore, not out, 11. Extras, 14. Total, 254-7 (dec). College won by innings and 117 runs.

COLLEGE v. SMITHFIELD.

Played at College on January 21 and 28. College batted first and thanks to the bowling of Riggs whose fast bumpers constantly had the batsmen in trouble, were dismissed for 117. Smithfield were then dismissed for 68, thanks to the accurate bowling and keen fielding by the College. Smithfield batted again and were dismissed for 132.

College (1st. inns.) Spencer, c. Bain, b. Riggs, 0; Torr, c. Twelftree, b. Riggs, 45; Wright, c. Aldridge, b. Bain, 29; Drew, c. Bowman, b. Riggs, 17; McKay, b. Riggs, 3; Mr. Cashmore, c. Bain, b. Riggs, 4; Parker, c. Riggs, 4; von Doussa, b. Riggs, 1; Mutter, not out, 2; Hooper, l.b.w., b. Twelftree T., 1; Collins, c. Judd, b. Riggs, 5; extras, 6. Total 117.

Smithfield (1st innings) 68. McKay, 3-16, Wright, 3-30; Parker, 3-6; von Doussa, 0-8; (2nd innings) —132. McKay, 0-2, Wright, 2-10; Parker, 0-20; von Doussa, 0-11; Collins, 0-25; Torr, 0-10, Mutter, 1-13; Cashmore, 1-10; Spencer, 4-15. College won on 1st inns. by 49 runs.

COLLEGE v. SOUTHS.

Played at Gawler on February 4 and 11. May won the toss and fielded. College were dismissed for 239, Torr batting splendidly for 74. Souths, thanks to a fine effort of 136 by May, totalled 263 and thus won the premiership.

College (1st innings) Spencer, c. Lord b. Brooks, 27; Torr, c. Brooks, b. Nottle, G. 74; Wright, c. Nottle T., b. Nottle G. 5; Mutter, run out, 20; Cashmore, c. Nottle, G. b. Sharp, 15; von Doussa l.b.w. b. Sharp, 15; Parker, c. Brooks, b. Sharp 5; Drew, not out, 27; Collins, c. and b. Brooks, 15; Jones, c. Lord, b. Nottle T., 12; McKay, did not bat, 0; extras, 23. Total—239.

Souths, (1st inns) 263 (May 136) McKay, 3-21, Jones, 0-31; Parker, 0-30; Wright, 2-53; Mutter, 0-21; von Doussa, 1-14; Collins, 0-24; Spencer, 0-7; Cashmore, 0-5 Souths won on the 1st inns. by 24 runs

NON ASSOCIATION MATCHES.

College v. S. P. S. C. Played at S. P. S. C. on February 20. College (1st inns) 215-9 (dec). Spencer, 68; Wright 48, McKay, 27, Mutter, 25; S. P. S. C. (1st innings) 194-4. McKay, 0-30; Jones, 1-43, Parker, 0-41, Wright 0-34; von Doussa, 0-13; Collins, 0-15; Hooper, 1-7 Drawn Game.

COLLEGE v. P.A.C.

Played at P. A. C. on February 21st. College (1st innings) 177-7 (dec) Wright 86, Spencer 35 n.o. P. A. C. innings 127-6. McKay, 1-20; Parker, 0-23; Wright, 2-13; Torr, 0-9; von Doussa 0-23; Hooper, 2-26; Mutter, 0-9

COLLEGE v. OLD STUDENTS.

Played at R. A. C. on February 22nd. McKay won the toss and fielded. Old Scholars were dismissed for 45. They fielded a weak team, however, and this, combined with fine bowling by McKay, caused their collapse.

College replied with 199, Drew top scoring with 34. College thus won by 154 runs.

Old Students (1st inns) Hall, A. C., c. Drew, b. McKay, 0; Williams, S. L., b. McKay, 3; Hocking, A., b. McKay, 2; James, W. J. H., b. McKay, 3; Murray, S. T., c. Hooper, b. Jones, 10; Cashmore, A. B., c. McKay, b. Jones, 0; Fairbrother V. M., b. McKay, 3; Jeffries, A. T., b. Jones, 4; Baker, R., not out, 19; Quinn, D. G., c. and b. Jones, 0; Jackson, J. B., run out, 0; extras, 1; total 45.

McKay, 5-9; Jones, 4-19, Wright, 0-10 Parker, 0-3;

College (1st inns) Spencer, L. V., c. Hocking, b. Murray, 13; Torr, S. J., c. Baker b. Jeffries, 13; Wright, J. L., c. Murray, b. Hall, 24; Drew, A. K., b. Hall, 34; von Doussa, F. b. Baker, 24; Mutter, W. K. b. Williams, 0; Parker, D. B., c. Hocking, b. Jeffries, 22; McKay, L. T., b. Jeffries, 19; Hooper, C. W., c. Baker, b. Jeffries, 12; Jones, T. B., not out, 6; Collins, K. F., c. Murray, b. Hocking, 1; extras 31. Total 199. James, 0-4, Williams, 1-27, Murray, 1-15; Fairbrother, 0-11; Jeffries, 4-52; Hall, 2-12; Baker, 1-36; Hocking, 1-6. College won on 1st. innings by 154 runs.

Roseworthy Agricultural College Athletic Club.

The Annual Sports were held on the College Oval on 12th August, being as usual, in conjunction with the much looked forward to Big Dance. The weather conditions were perfect, a beautiful spring day with glorious sunshine pouring down. However, the running tracks were somewhat hard, due to the absence of a fall of rain for a long time before the sports.

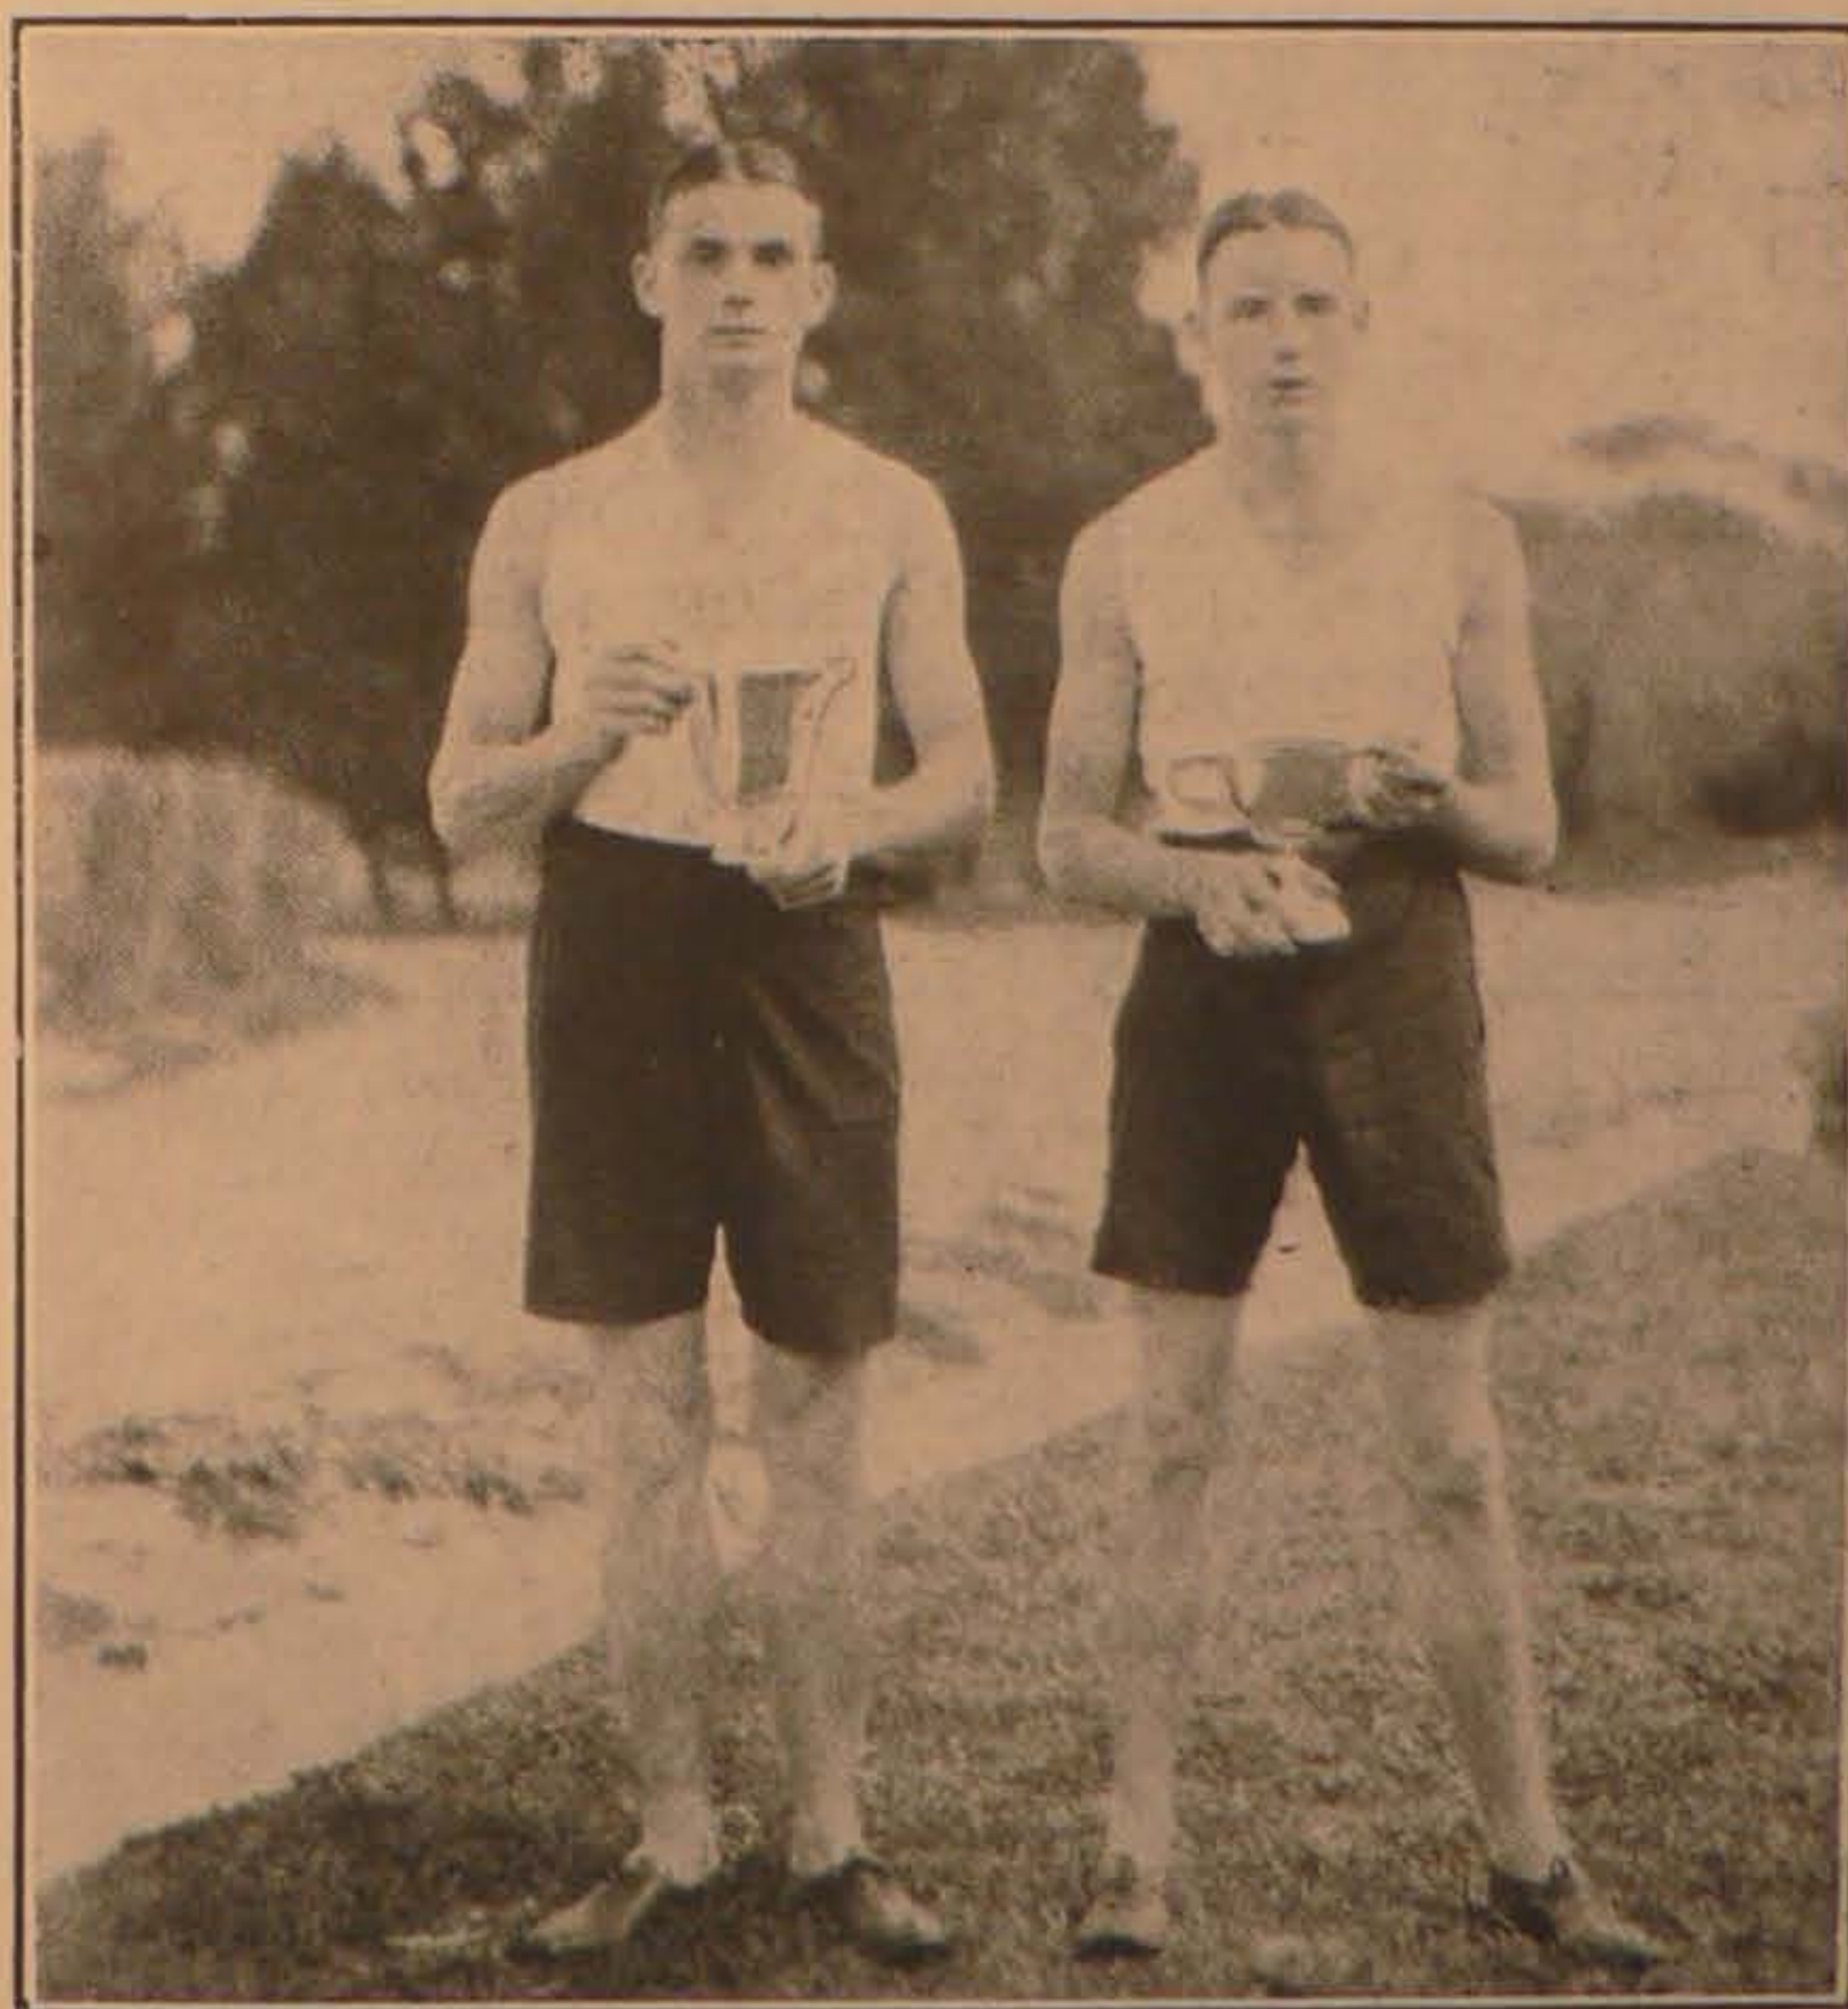

The committee, under the management of Mr. T. A. Cole and students A. K. Drew and T. V. Winnall (joint hon. Secretaries) carried out their arrangements without a hitch, and are being congratulated on their efforts.

Only one record was broken during the day, this being the Sheaf tossing

in which A. D. Hancock raised the previous best by 10½ ins; the record now standing at 26 ft. 6 ins. Several new events were found on the programme and also an inter year competition in which only the Cup events together with the Tug of War and relay race were included. The shield for the winning year was carried off easily by the II year.

The cup resulted in a very even contest, being in doubt until after the last Cup event. It was found then that A. L. Gerken and W. E. Meier had tied for first place with H. A. Reschke and J. G. Heggie but one point behind.

It was agreed to present a Cup to both Gerken and Meier, who both recorded fine performances and are to be heartily congratulated on their versatility.

W. E. MEIER and A. L. GERKEN,
Winners of the Cup.

CUP EVENTS.

Putting the Weight.—J. C. Heggie, 1; T. V. Winnall, 2; W. E. Meier, 3. Distance, 27 feet 10 inches.

Long Jump.—A. L. Gerken, 1; W. E. Meier, 2; H. A. Reschke, 3. Distance, 19 feet 5 inches.

120 Yards Hurdle.—J. G. Heggie, 1; T. V. Winnall, 2; H. A. Reschke, 3. Time, 19 1-5 seconds.

100 Yards Flat.—H. A. Reschke, 1; D. A. Humphris, 2; A. L. Gerken, 3. Time, 11 seconds.

440 Yards Flat.—W. E. Meier, 1; A. L. Gerken, 2; D. A. Humphris, 3. Time, 56 4-5 seconds.

High Jump.—T. V. Winnall and J. G. Heggie, dead heat, 1; H. A. Reschke, 3. Height, 5 feet 0 1-2 inch.

220 Yards Flat.—W. E. Meier, 1; H. A. Reschke, 2; D. A. Humphris, 3. Time, 25 1-5 seconds.

One Mile Flat.—C. O. Geddes, 1; A. L. Gerken, 2; E. A. Craddock, 3. Time, 5 26 seconds.

Points Gained by Cup Competitors. First, 5 points. Second, 3 points. Third, 2 points.

W. E. Meier, 15 points; A. L. Gerken, 15 points; J. G. Heggie, 14 points; H. A. Reschke, 14 points; T. V. Winnall, 10 points; D. A. Humphris, 7 points.

MINOR EVENTS.

Sheaf Tossing.—A. D. Hancock, 1; H. F. Blacker, 2; A. L. Gerken, 3. Height, 26 feet 6 inches.

Kicking for Distance.—J. G. Heggie, 1; D. D. Couche, 2; D. A. Humphris, 3. Distance, 56 yards 2 feet 3 inches.

Kicking for Goal.—R. N. Mellor, 1; J. Cuthbertson, 2; W. E. Meier, 3. 31 points out of possible 36.

Throwing Cricket Ball.—L. V. Spencer, 1; T. Jones, 2; D. A. Humphris, 3. Distance, 87 yards 2 feet 1 inch.

135 Yards Handicap Flat Race.—D. Couche, 1; C. Kimber, 2; D. Fulton, 3.

Inter Year Tug of War.—II. Year, 1; I. Year, 2; III. Year, 3.

Throwing Cricket Ball at Single Stump, at 44 Yards.—(For case of oranges presented by W. J. Dawkins.) W. Young.

220 Yards Handicap.—F. K. Parsons, 1; A. C. Hooper, 2; A. L. Gerken, 3.

100 Yards First Year Race.—C. Kimber, 1; A. C. Hooper, 2; H. A. Combe, 3.

100 Yards Second Year Race.—L. C. Harrison, 1; A. L. Gerken, 2; F. K. Parsons, 3.

100 Yards Third Year Race.—D. Fulton and D. Couche (dead heat), 1; W. Young, 3.

Sack Race.—R. M. Purbrick, 1; J. Young, 2; C. Brown, 3.

Half Mile Handicap.—L. C. Harrison, 1; W. Young, 2; A. C. Hooper, 3.

120 Yards Handicap Hurdles.—A. D. Hancock and T. V. Winnall (dead heat), 1; R. N. Mellor, 3.

Old Scholars Race.—W. V. Ludbrook, 1; R. Hill, 2; J. L. Williams, 3.

Draught Horse Derby.—Forth (D. Fulton), 1; Togo (J. Heggie), 2; Allan Postle, 3.

Consolation Siamese Race.—J. Legoe and W. Ellis, 1.

Inter Year Relay Race.—III. Year, 1; II. Year, 2; I. Year, 3.

Points for Inter Year Shield
II. year, 59 points; III. year, 36 points; I. year, 5 points.

At the conclusion of the Sports, Mrs. W. J. Colebatch kindly presented the prizes to the successful competitors.

FOOTBALL.

At the conclusion of the 1927 season it was resolved that we withdraw from the Adelaide Students' Football Association and join in the Gawler Association. This change was greeted with much enthusiasm by the staff and students alike, and the opening of the 1928 season was a very auspicious one.

W. E. Meier was chosen to captain the side, and D. A. Humphris was elected vice-captain. The initial successes of the team in the new association were due to the efforts of these two, who undertook the task of coaching the team.

The secretarial duties were in the hands of L. V. Spencer.

The thanks of the club are due to the staff for the facilities afforded the team to practice, and to Mr. Baker in particular for his interest in the club.

OFFICERS.

W. E. Meier (capt.), D. A. Humphris (vice-capt.). Selection Committee: W. E. Meier, D. A. Humphris, A. K. Drew, L. V. Spencer, and T. V. Winnall. Delegates to the Association: Mr. R. Baker, W. E. Meier, L. V. Spencer. Hon. Secretary: L. V. Spencer.

FOOTBALL TEAM, SEASON 1928.

College v. Centrals, April 28th.

Played at the College, the oval and weather being ideal for the opening match of the season. Centrals combined well and started smartly, but by half-time College led by 1 point. Play became faster after half-time, but College was always in front, and managed to hold off Centrals and win well.

Scores:—College, 10-12, Centrals 9-12. Goal-kickers—F. von Doussa (6), Drew (2), Spencer and Williams (1 each). Best players—Spencer, Drew, Winnall, Glynn, Williams, Meier.

College v. Gawler South, May 5th.

Played at the College. Souths secured a big lead in the opening quarter, but thereafter College more than held their own. The defence work of Mellor, Glynn, and Reschke was very strong, but the ruck was weakened by the absence of Meier. Souths won well and played good football.

Scores:—Souths, 9-5; College, 5-4. Goal-kickers—Gerken, Tuckwell, Williams, von Doussa, and Spencer (1 each). Best players—Winnall, Spencer, Reschke, Glynn, Mellor, Hooper.

College v. Hamley Bridge, May 12th.

Played at Hamley. College were again without Meier, owing to an injury. Humphris led the team in his absence. Kicking with the wind, College could not manage more than points. Hamley kept the ball low, and with good combined play outscored College. Reschke, Winnall and Cole were conspicuous for College. The strong head wind made shooting for goal difficult.

Scores:—Hamley Bridge, 10-7; College, 4-9. Goal-kickers—Drew (2), von Doussa and Hooper (1 each). Best players—Cole, Reschke, Oldfield, Glynn, Winnall, Spencer.

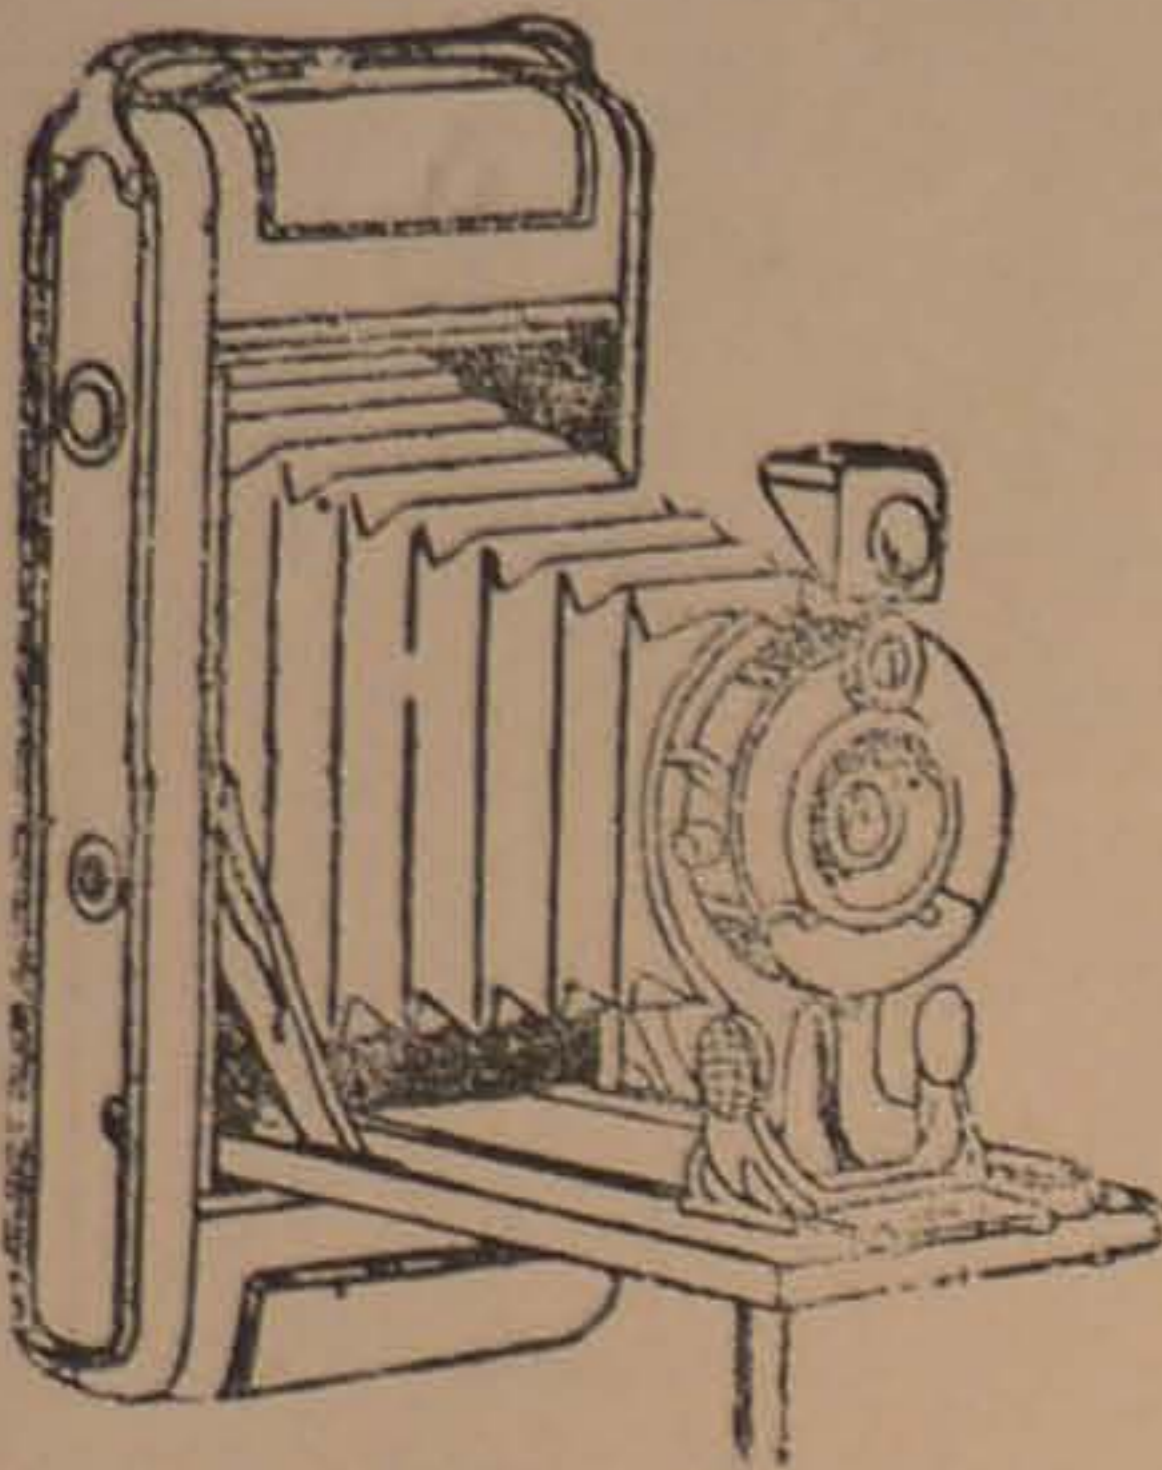

College v. Williamstown, May 26th.

Played on Williamstown Oval in good weather, before an enthusiastic crowd. College were without the services of Cole, Reschke, and Mellor. Williamstown played all over College for half the game, and but for faulty goal-front work would have held an unassailable lead. After half-time College played better combined football, and in the last quarter scored 4 goals to 2 goals 2 behinds scored by Williamstown. How-

ever, they could not make up the leeway, and Williamstown won comfortably.

Scores:—Williamstown, 10-18; College, 6-2. Goal-kickers—Drew (3), von Doussa (2), Williams (1). Best players—Spencer, Glynn, Cuthbertson, Oldfield, Winnall, Whicker.

College v. Rovers, June 2nd.

Played at the College. Mellor and Reschke took their places in the team again, but Cole and Spencer were both out through injuries. College played with good system for half the game, when Rovers commenced to crowd the play. College held a sway across the centre and in the ruck, and this ascendancy enabled them to win without being extended.

Scores:—College, 6-9; Rovers, 4-7. Goal-kickers—Drew (2), von Doussa, Williams, Heggie and Tuckwell (1 each). Best players—Winnall, Reschke, Cuthbertson, Glynn, Whicker, Mellor.

College v. Willaston, June 9th.

Played on the College Oval in fine weather. The College fielded a full side for the first time this season. Winning the toss, Willaston opened up with the wind and quickly had 3 goals 6 behinds on the board. College backs with Glynn prominent kept scoring down. After the first change, College opened out and rattled on 4-2 to a point by Willaston. R.A.C. 5-3, Willaston 3-7. The 3rd quarter was fast and open, but scoring was low owing to supremacy of backs. At the last change College were 8 points in arrears. Within two minutes, 2 goals were added by Spencer and Drew. Willaston equalised, and a great struggle for supremacy ensued, ruggedness becoming the main feature. Willaston lasted better—8-16 to 8-5.

Goal-kickers—Spencer (4), Drew (2), Cole (1), von Doussa (1). Best players—Winnall, Spencer, Tuckwell, Cole, Mellor, Heggie.

College v. Centrals, June 16th.

Played on the College Oval in ideal weather. The ground was moist and slippery. College started off well and, largely through the agency of Drew

CURRIE STREET, ADELAIDE

(4 goals), soon had a commanding lead 7-4 to 1-3. Centrals combined better in the 2nd quarter, and confined the College scoring to 2 points, while scoring 3-2. In the third term the College forwards again fanned out in good form and, though playing one man short, added 5-1 to 2-1 by Centrals. The last quarter was marked by an almost continuous stream of shots by Centrals, but on the three occasions the ball was in the College forward lines, the maximum was scored.

Scores:—College, 15-8; Centrals, 6-10. Best players—Spencer, Meier, Tuckwell, Cole, Winnall, Mellor. Goal-kickers—Spencer (6), Drew (4), Couche (2), Williams (1), Hooper (1), Meier (1).

College v. Willaston, July 14th.

Played on College Oval. Willaston, aided by a good breeze, played good football in the first quarter and added 6 goals 3 behinds to 1-2 scored by College. The latter started off well with the wind, but after scoring 1 goal faded out of the picture. At half-time Willaston led by 9 goals. The third and last quarters were evenly contested, and the scores are not a fair indicator of the play. However, most of the College team were off form, and the Willaston scores were not remarkable in the circumstances.

Scores:—Willaston, 14-14; College, 4-4. Best players—Winnall, Oldfield, Humphris, Cole, Heggie, Spencer. Goal-kickers—Spencer (2), Winnall (2), Drew (1).

College v. Rovers, July 21st.

Played on the College Oval in muggy weather. Rovers were without the services of several good men. Nevertheless, they outplayed College in the first quarter, scoring 3-1 to our 1-0. After the first change, College took the lead and were never headed. A feature was the poor shooting for goal by College forwards, and also our marked superiority in ruck and across the centre. Meier showed a welcome return to form.

Scores:—College, 11-13; Rovers, 4-8. Goal-kickers—von Doussa (4), Spencer,

(3), Meier, (2), Williams and Hooper (1 each). Best Players—Meier, Spencer, Winnall, Williams, Cuthbertson, Humphris.

College v. Souths, August 11th.

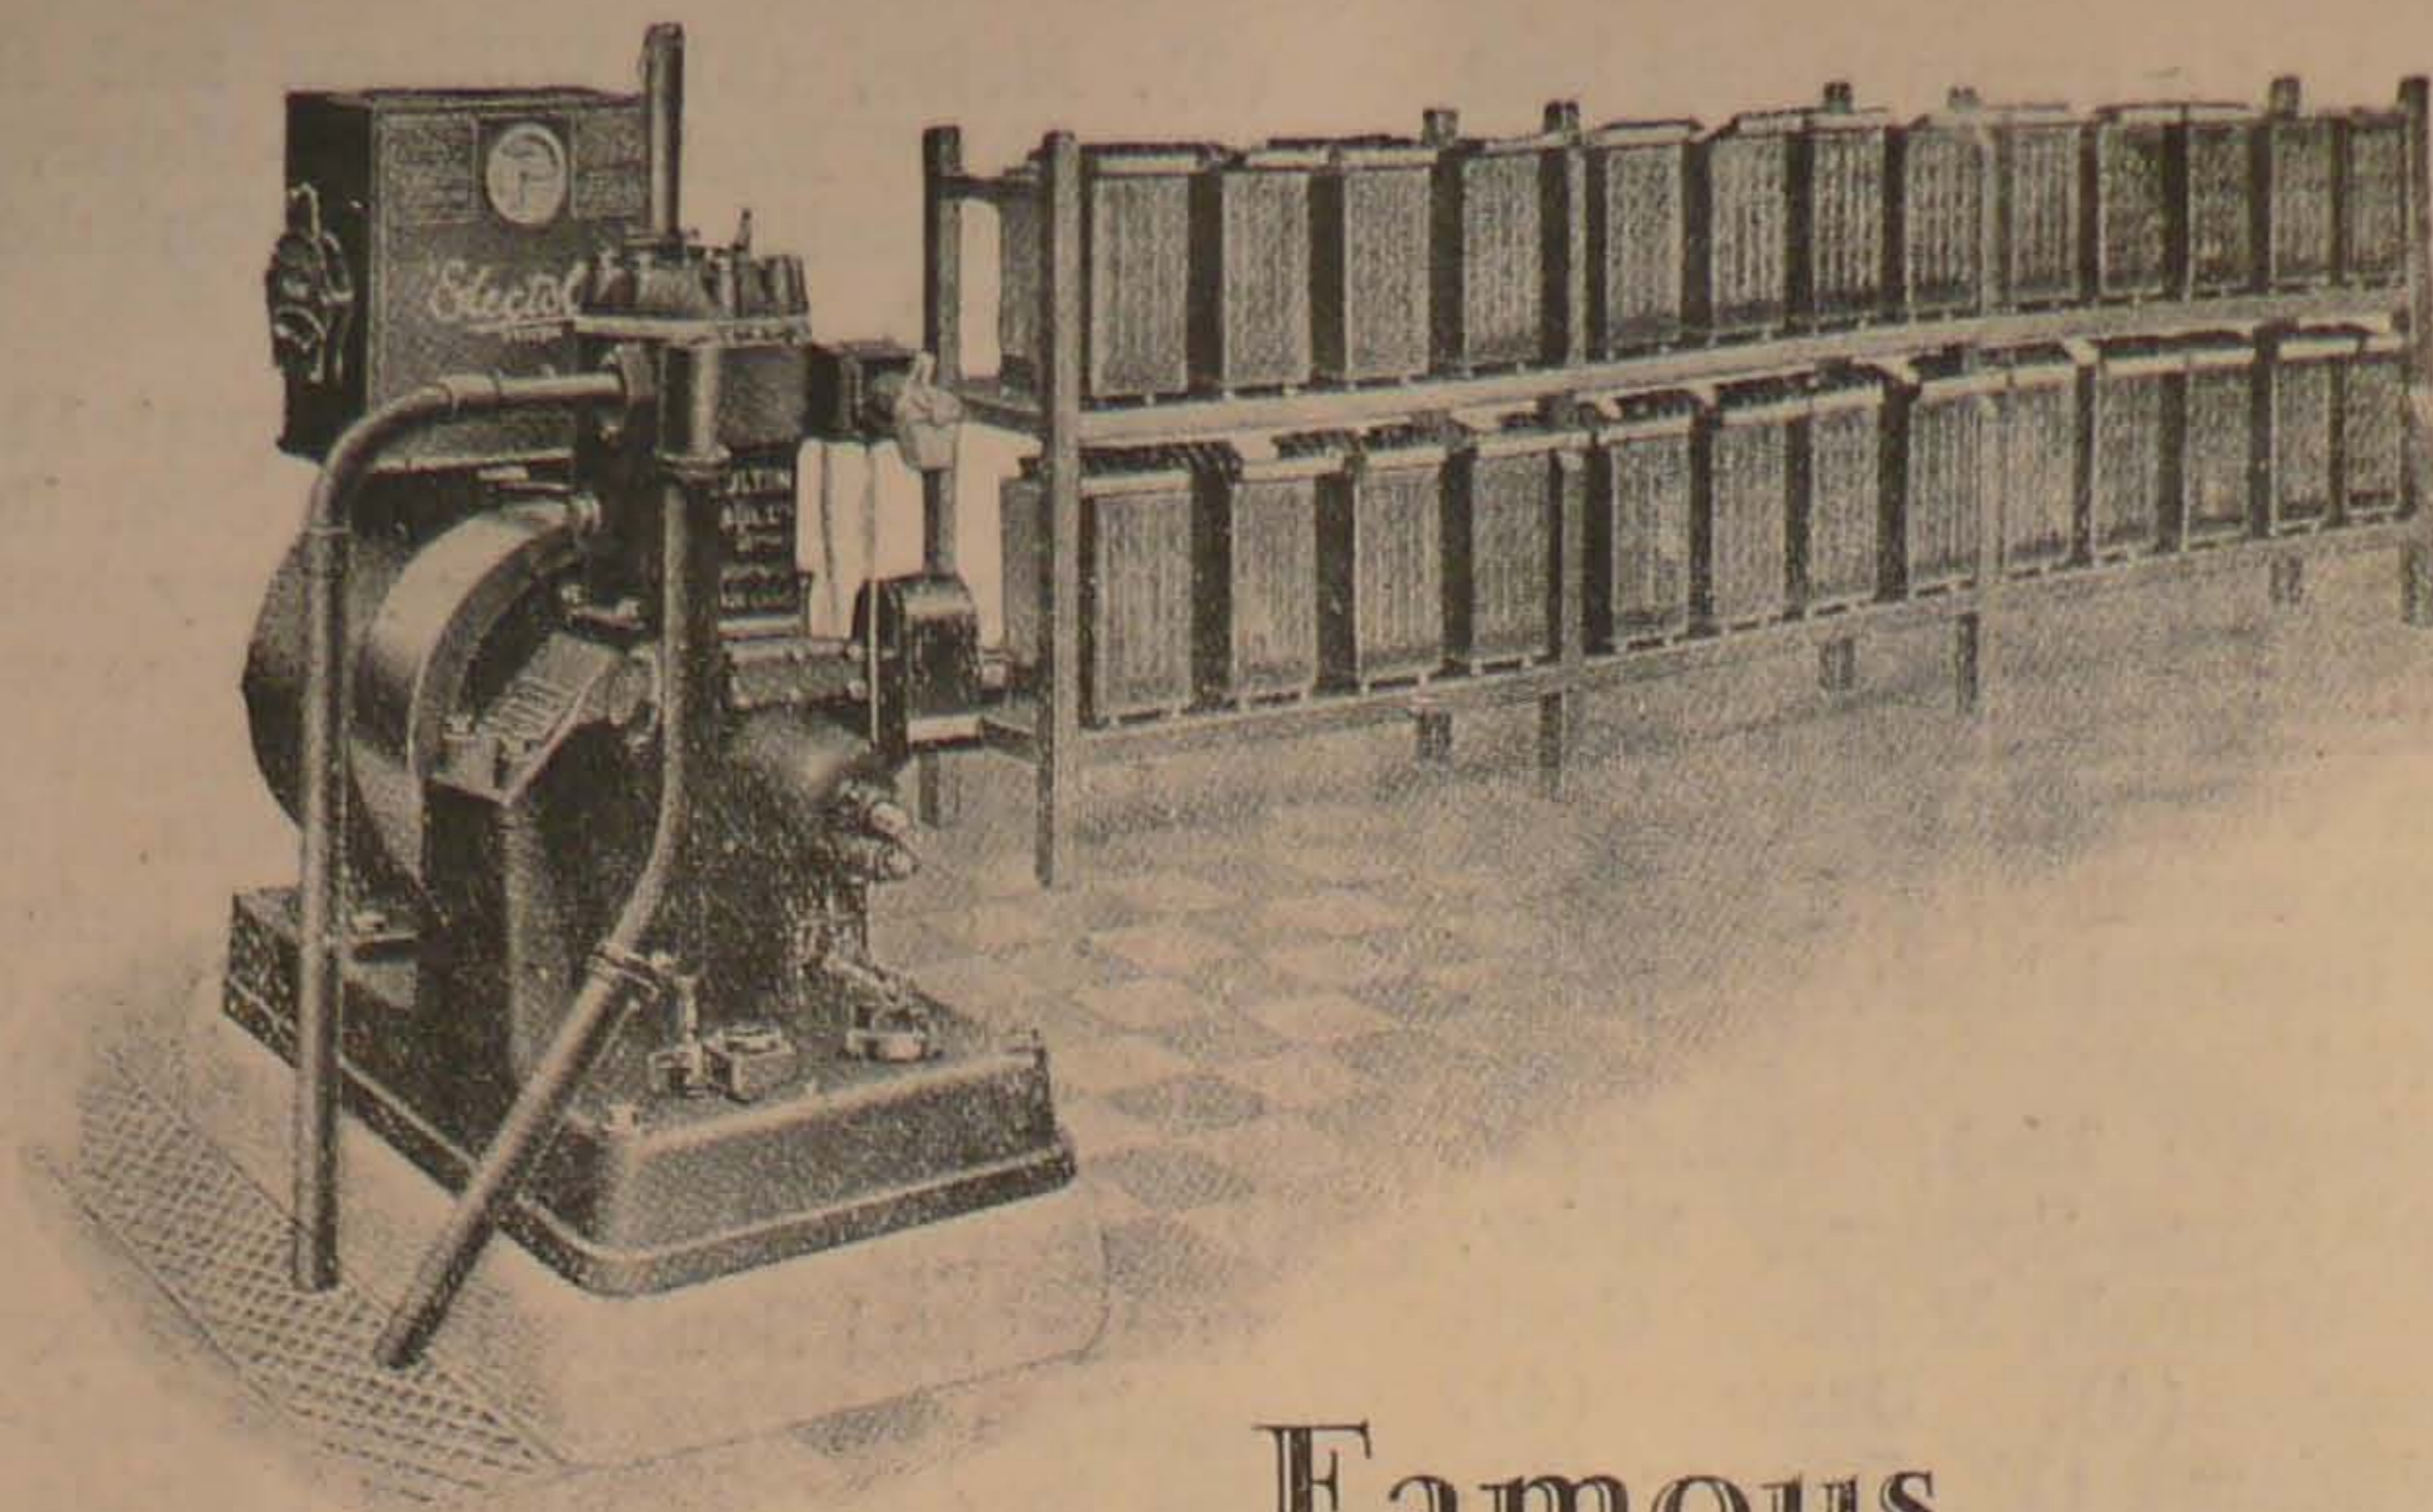

Played on the College Oval in ideal weather. The oval was very hard and players slipped easily. College won the toss and kicked with a slight breeze towards the tennis courts. Souths opened strongly, adding 2-2 before College opened their account. The College centres and forwards then had all the play, and scored 3-4 for the quarter. After the first change play became faster, and Souths, by good play, managed to lead by 1 point at half-time—5-3 to 4-8. The third quarter was a continuation of the same pace, the game being of a high standard, with good marking and accurate passing much in evidence. College had all the play in their forward area, but a string of points, with only two goals, did not improve their position at three-quarter time. The last quarter provided good football, the lead alternating from side to side. College led by 11 points half-way through, and with the backs playing strongly looked sure winners. However, South fought back gamely, and a goal by C. Nottle two minutes before time gave them a 3-point lead. College were in attack and looked like scoring when the bell rang.

Scores:—South, 11-6; College, 9-15. Goal-kickers—Williams (3), Spencer and von Doussa (2 each), Drew and Wicker (1 each). Best players—Winnall, Meier, Spencer, Cuthbertson, Glynn, Cole, Whicker.

Non-Association Matches.

College v. Prince Alfred's Old Scholars.

Played at R.A.C. on September 1st. The ground was fairly hard, and a fairly strong wind militated against high scoring. College held their own against the wind, and in the second quarter ran to a 3-point lead at half-time. Playing fine system in the third quarter, College soon had a commanding lead of 7-7 to 4-6. The last quarter was evenly contested, College failing to score, and their opponents adding 1-2.

Scores:—College, 7-7; P.A.C. Old Scholars, 5-8. Goal-kickers—Couche (2), F. von Doussa (2), Drew, Spencer and Meier (1 each). Best players—All played well, with Mellor, Drew, Cuthbertson, Meier, Humphris and Hooper showing out prominently.

Mr. T. A. Cole kindly lent his services as central umpire.

College v. Hamley Bridge, July 28th.

Played at the College Oval in a light drizzle, making marking and accurate kicking almost impossible. College jumped out to an early lead, and having the ascendancy in the ruck, quickly led. At quarter time scores being, College, 4-3, Hamley, 1-1. The second quarter was marked by good even football, but the rain made conditions unpleasant. Conspicuous in this quarter were:—Glynn, Tuckwell, and Williams, and Cuthbertson had the call over his immediate opponent, being recognised as the best wingman in the Association. Shooting for goal was good. Despite determined but unsustained efforts on the Hamley's part to break through our defence lines, College continued to forge ahead, and were well ahead on general play. Several prominent players showed a welcome return to form, which augurs well for our final four prospects.

Scores:—College, 10-7; Hamley, 6-9.

Goal-kickers—Williams (3), von Doussa and Drew (2 each), Glynn, Spencer, Tuckwell (1 each).

College v. Willaston, August 4th.

Played at Willaston in ideal conditions. College started off strongly, and with Williams leading out well up forward, College led by 3-0 to 1-3 at the first change. Williamstown soon overtook this lead and, playing an accurate short-passing game, added 5-0 in second quarter. After half-time the game became faster, with Williamstown men playing well together. The quarter was very even, and marked by accurate shooting—8-5 to 5-3. The last quarter was played at a fast pace, and College gradually retrieved their position, adding goals. A good last quarter

finished with Williamstown just in front.

Scores:—Williamstown, 10-7; College, 10-5. Goal-kickers—Spencer (4), Meier, Glynn, Williams, Hooper, Drew, Mellor (1 each). Best players—Spencer, Humphris, Meier, Winnall, Glynn, Williams.

College v. Melbourne Grammar School.

The above match was played on Monday, 3rd of September. The afternoon was proclaimed a holiday, the visitors arriving in time for lunch and being accompanied by a party from Saint Peter's. After a tour of inspection of the College and surroundings, the game started at 2.30, in order to allow our visitors time to return to Adelaide.

The first quarter proved to be all in favour of the visitors, assisted by a strong wind. Contrary to expectations, they scored as well against the wind, giving the College little chance. However, the rest of the game was fairly even, but Melbourne Grammar's teamwork, which was a revelation, carried them to a 4-goal win.

Scores:—Melbourne Grammar, 12-13; College, 8-10. Goal-kickers—Couche (3), Drew (3), von Doussa and Mellor (1 each). Best players—Meier, Humphris, Mellor, Hooper, Postle and Heggie.

At the conclusion of the season a meeting of the selection committee was held and "Colours" were awarded to the following players:—T. V. Winnall, R. N. Mellor, J. L. Cuthbertson, A. K. Drew.

Members of the team already having "Colours";—W. E. Meier, D. A. Humphris, R. E. Oldfield and L. V. Spencer.

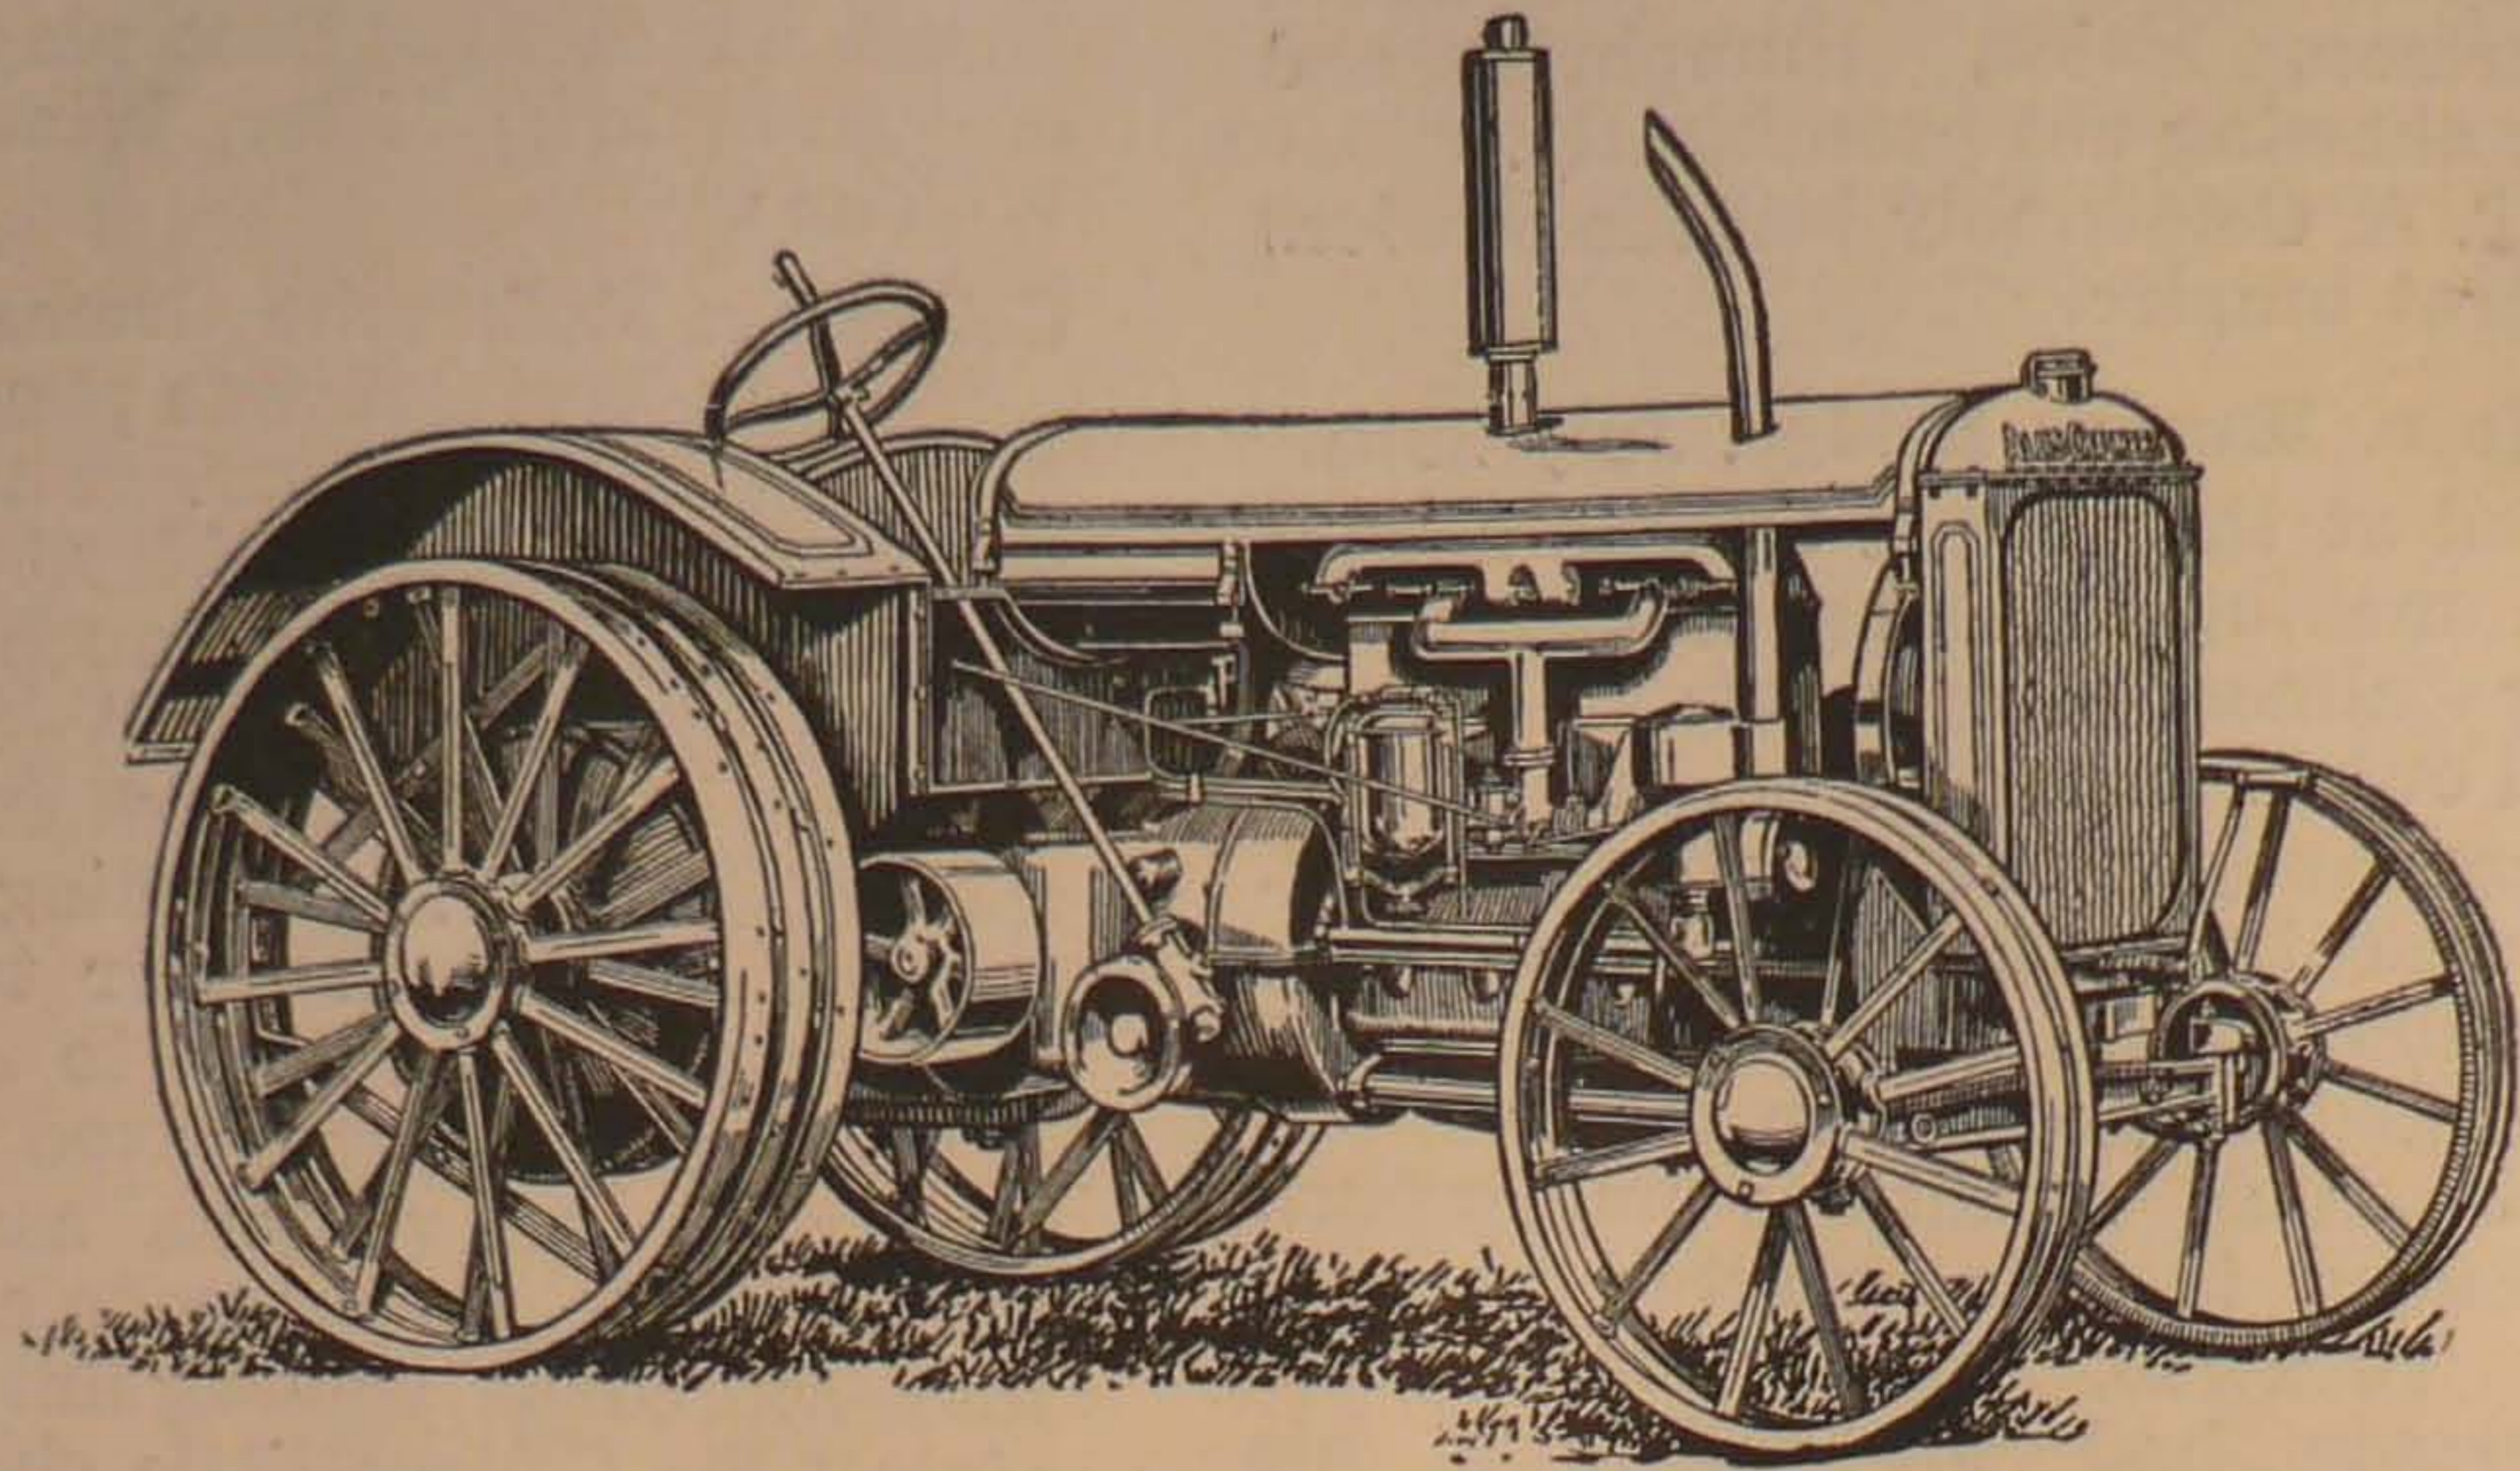

We offer our congratulations to the Willaston Football Club on its annexations of the 1928 Premiership of the Gawler Association.

CRITIQUE OF FIRST TEAM.

By Captain.

Mr. Cole (Centre)—Plays a very correct game and uses good judgment in scouting. A good example to younger members of the team. Should use his weight more vigorously and employ his long punt more.

NORTH TERRACE ADELAIDE

Mr. Williams (Rover and Goalsneak)—A very useful player and a great battler. Inclined to lead too far into pockets, and a somewhat erratic kick when in front of goals. "Jock" is a great asset to our young and inexperienced team.

Mr. Whicker (Full Back)—Plays with any amount of dash. A rather erratic kick. Syd is one of our "never beaten" men, and should be a valuable man next year.

D. A. Humphris (vice-captain—goal-keeper)—Don is at present playing at the top of his form. He comes through exceptionally well and shows good judgment in marking and leaving the sticks. Possesses a "rare" drop-kick, and would be well advised to adhere to it more than he does.

L. V. Spencer (Rover and Goalsneak)—Laurie has played great football this season. He uses his "head" well, particularly up forward, although a rover can mark with the best of them. Is inclined to take things too easy when not hard pressed.

T. V. Winnall (Ruck and Full Back)—Our most consistent man. His "come through" tactics have dispersed many a crowd. Plays brilliantly and solidly on the ball. A good mark. Watch your kicking, "Tom."

G. G. S. Kimber (Full Back)—Could be one of the best men in the team, but is too lax at practice and sometimes in a match. On his day marks and comes through well, but should develop a good drop kick. Practise hard next year, Geoff.

J. McM. Glynn (Centre Half-Back)—Plays a good, rugged game and comes through well, following up with a good long kick. Joe is capable of marking with the best of them, but punches too much. Get in front of your man, "Joe."

H. Reschke (Half-Back)—Possesses a good turn of speed and excellent dash. Marks well, but inclined to be erratic in his kicking. Should keep to drop-kick as much as possible.

J. Tuckwell (Ruck and Full-Back)—A very determined player who keeps going all the time. Comes through

fairly well, but kicks very erratically. Cultivate a good punt, "John."

R. B. Postle (Ruck and Half-Back)—Struck form again towards end of season in midfield, but knocks out without direction. Fair mark on his day, but a somewhat erratic kick. Cultivate more speed, "Ron."

R. E. Oldfield (Right Centre Wing)—Battles every inch of the way and is never beaten. Has played consistently good football this season. Try and cultivate a low pass, Bertie.

J. L. Cuthbertson (Left Centre Wing)—Has improved immensely. Besides being a fairly long kick he is the best and most accurate pass in the team. Fails to "get into it" at times, and leaves his position. Go right into it at the beginning, "Jim" when next season comes.

R. N. Mellor (Centre Half-Forward)—Ray is undoubtedly the most improved man in the team. Has been playing remarkably well of late. One of the best marks in the team, and a fair kick. Employ your long kick more than your short passes, "Ray."

J. G. Heggie (Half-Forward)—Unbeatable on his day. A sound mark and excellent kick. Never turn your back on the play, "Jim."

A. C. Hooper (Half-Forward)—Very keen at practice and a much improved player. Leads out well and forwards with good long drop-kick. Can mark with the best of them. Get into it every time, "Hoop."

A. K. Drew (Full Forward)—One of the best full-forward pocket players I have seen. Is always there and can "put them through" from any angle. A fair change rover. Put more "sting" into your play, "Tiny."

F. von Doussa (Full Forward)—Is capable of playing real good football, but lacks confidence. On his day leads out particularly well, and is an accurate kick. Try putting more vigour into your play, "Fred."

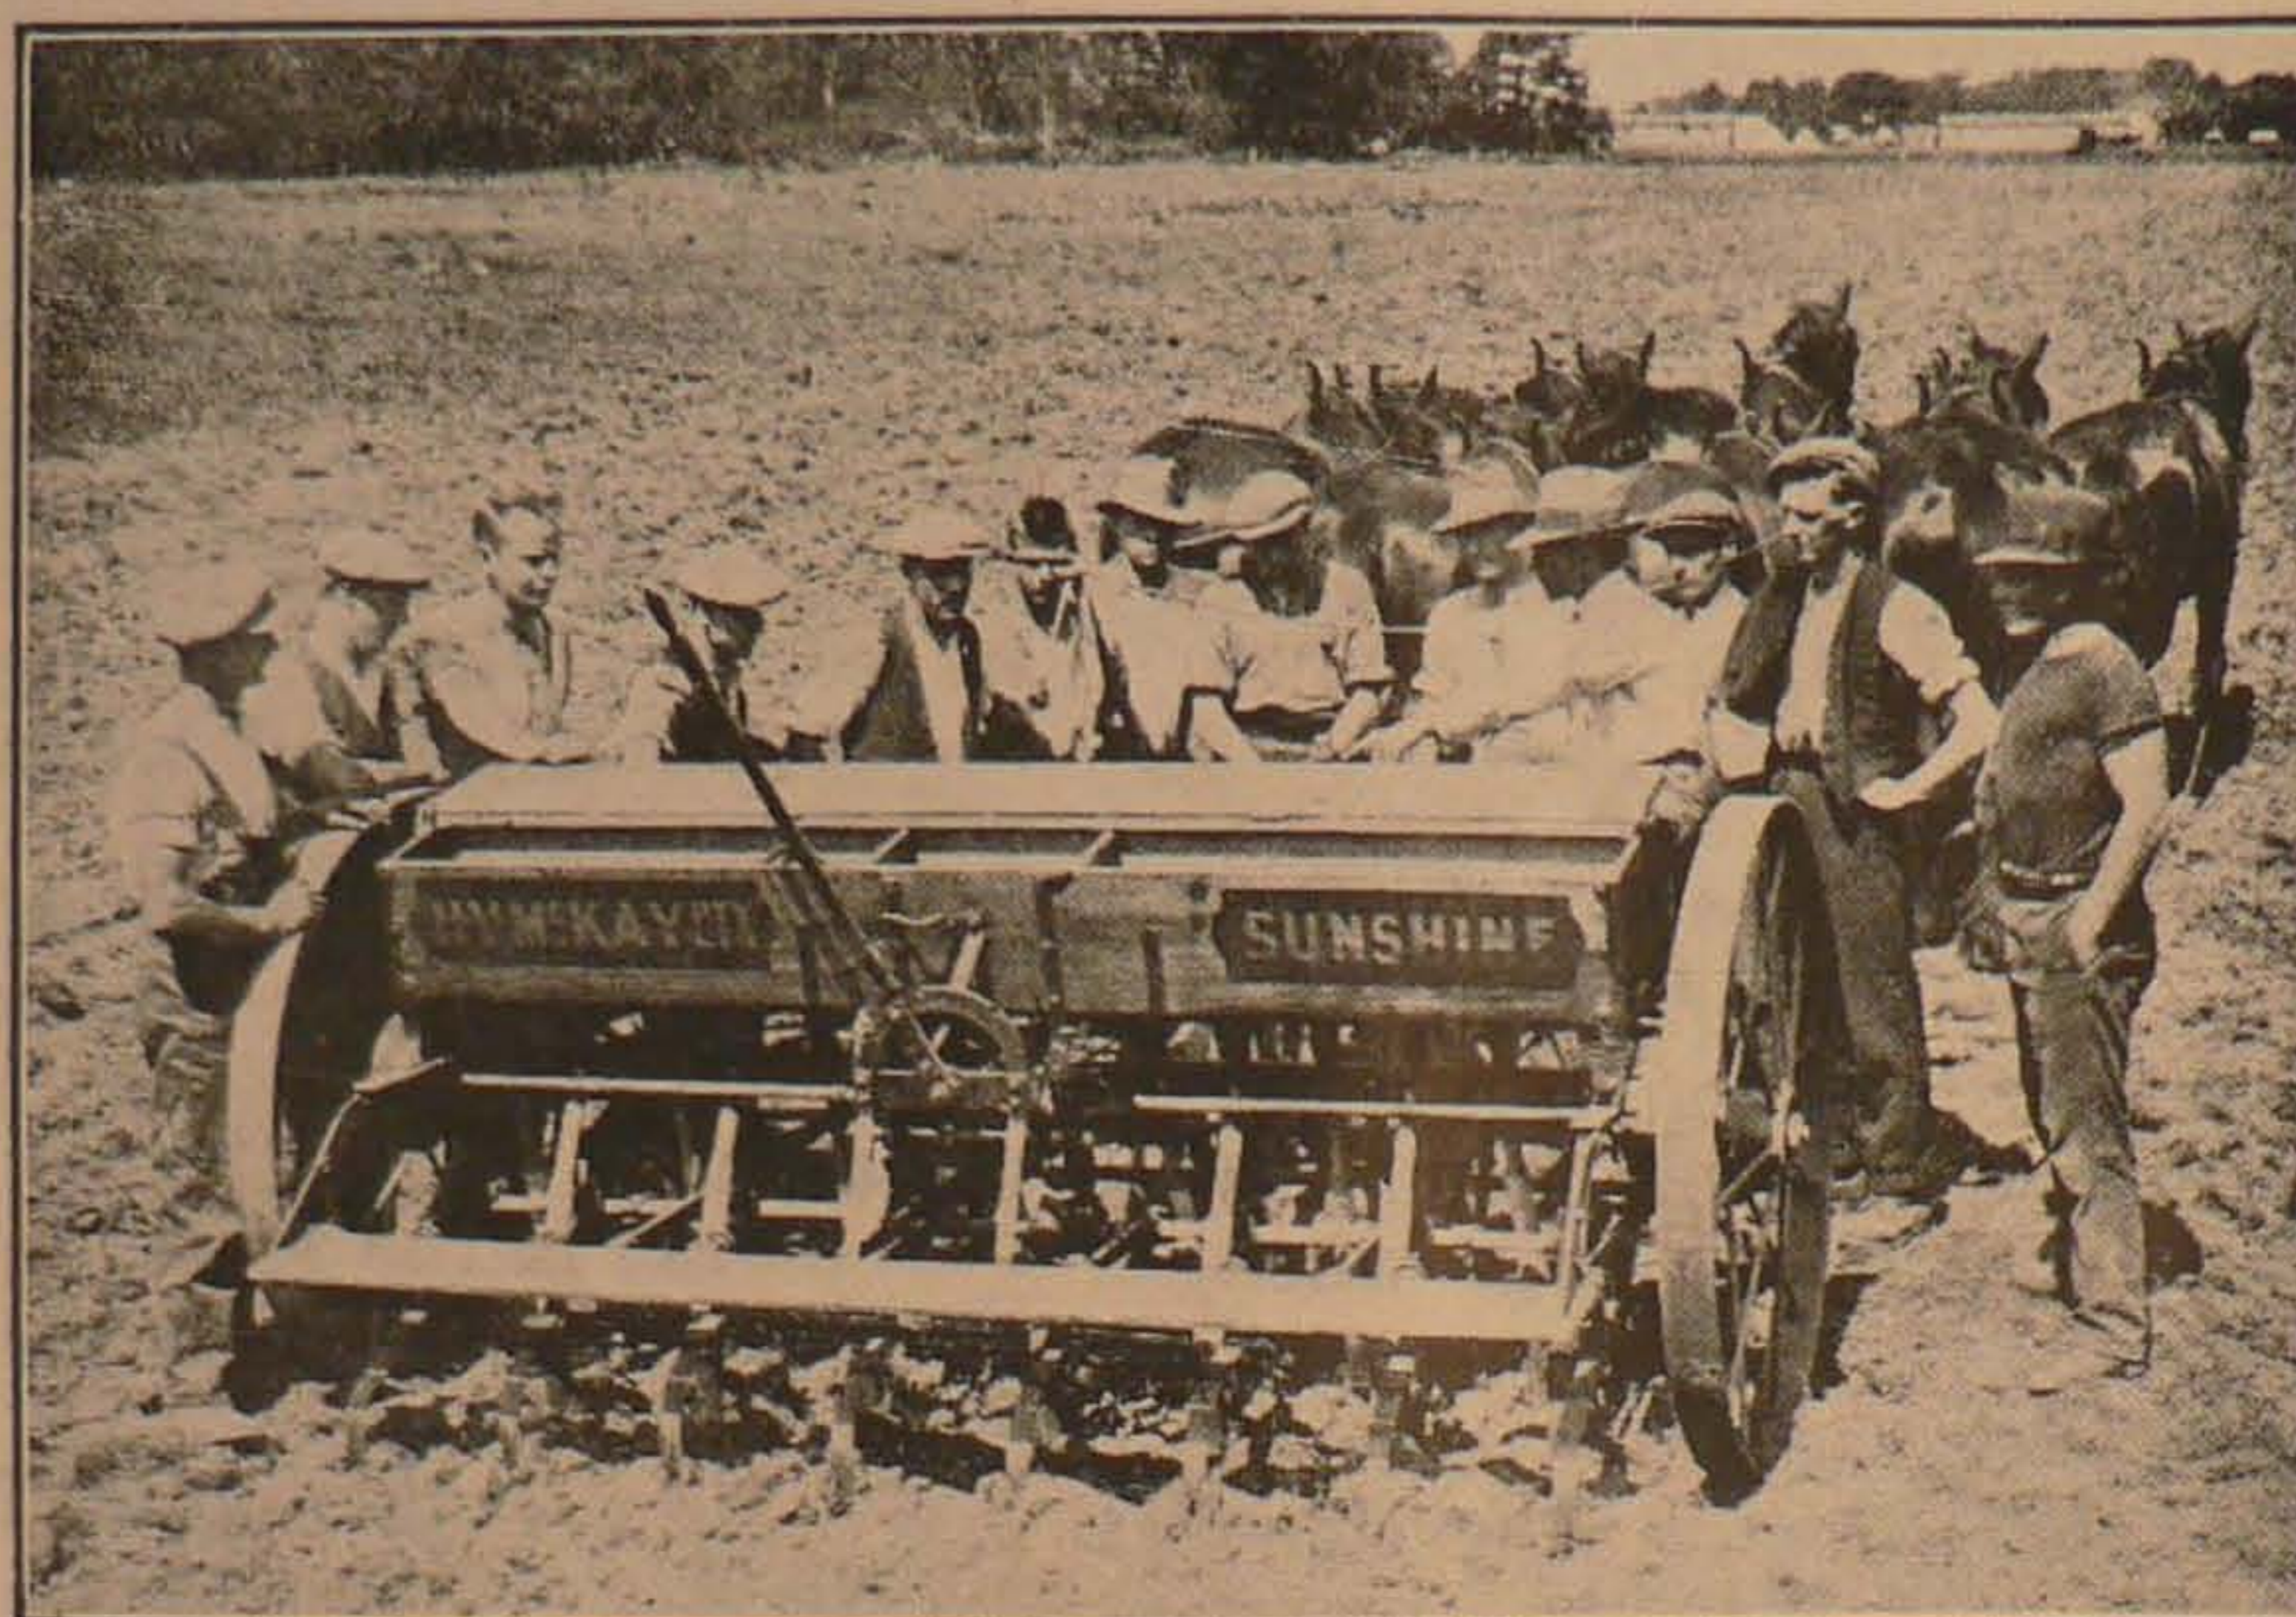

(By Vice-Captain.)

W. E. Meier (Captain—Follower and Half-Left)—Fine mark and good kick. Knocks out accurately to rover. Never beaten in ground work. Gets rid of

ball well and effectively. The success of the team is in no small measure due to his unfailing enthusiasm in coaching his team, and his consistent efforts in matches.

THE MELBOURNE TRIP.

On Friday, the 29th of July, we assembled at the Adelaide station with buoyant spirits and bulging pockets, and, after parking luggage, we gathered on the platform and cheered the flag. As the train drew out war cries and cheers drowned the usual bedlam of the railway station.

Some of the party seemed very restless until Mount Lofty was reached. Meier then went to sleep, and things gradually quietened down, with the exception of a few sleepy songs and the wail of a baby in the distance, until Murray Bridge was reached. Here we refreshed ourselves with pies. Meier ate six and went to sleep again.

Vitality was at a low ebb until after breakfast, then soon from the mists Bacchus Marsh appeared on our left and Footscray greeted us from afar. Meier sniffed and woke up. After a look around Melbourne, in twos and threes, we boarded the train for Sheparton, and, as the train was crowded, most of us were draped along the corridors and platforms. At Sheparton, after filling one hotel, the overflow went to another. After a cleanup, the majority explored the town. In the evening, some went to a dance, and others saw "The King of Kings" and kept the landlord busy in the small hours. The shower bath next morning was rather funny. The only person in the room who didn't get drenched was the one trying to have a shower.

About 10 o'clock next morning the D.A.C. bus picked up our party and started for Dookie. The load was too much for Lizzie, however, and after staggering along for about three miles she gave up the ghost. The arrival at Dookie was rather stretched, as six were left on the road when the bus started again. Mr. Dreverman (Principal of Dookie) showed us over the farm in the afternoon.

Monday morning we all awoke fresh and full of fight, ready for the great match. It was evident by the end of the first quarter, however, that late nights are not conducive to good football. Roseworthy put up a good fight, but the Dookians showed themselves the superior team by winning the match by 3 points, the final scores being:—Dookie, 5 goals 13 behinds; Roseworthy, 6 goals 4 behinds.

During lunch, Mr. Dreverman officially welcomed us, and said he hoped they would be able to return the visit shortly.

Mr. Baker responded, and conveyed Mr. Birks' best wishes to Dookie, and hoped that he would see the Dookians at Roseworthy in the near future. He then thanked our hosts for the very good time they had given us, and called upon Meier to second him in this. Meier did so, and expressed a hope for revenge on the football field.

On the way back we stayed at the Federal in Melbourne. On Wednesday we took our guernseys, etc., to Melbourne Grammar School, but again we were defeated by 3 points.

Next morning all was hurry and bustle, as we were going to Sunshine and did not know at what time the train left. After half of us had missed our breakfast, we arrived half an hour early for the train. The size of McKay's works was astonishing, and the trip very interesting and educational. Unfortunately, in the afternoon half the party had to return to Adelaide. Those that did not, had some unforgettable experiences, and learned to "Drag." On Sunday we packed our bags and paid our bills (after feeling very deep in our pockets), and boarded the express for home—a little sad, rather tired, and extremely broke.

Some of us showed our singing powers, one of us learnt to knit, and at Ararat we were agreeably surprised to see some well-known faces again, and also a roast chicken, which did not last long. Tired and grubby, but blissful, we arrived back in Adelaide on Monday.

THE

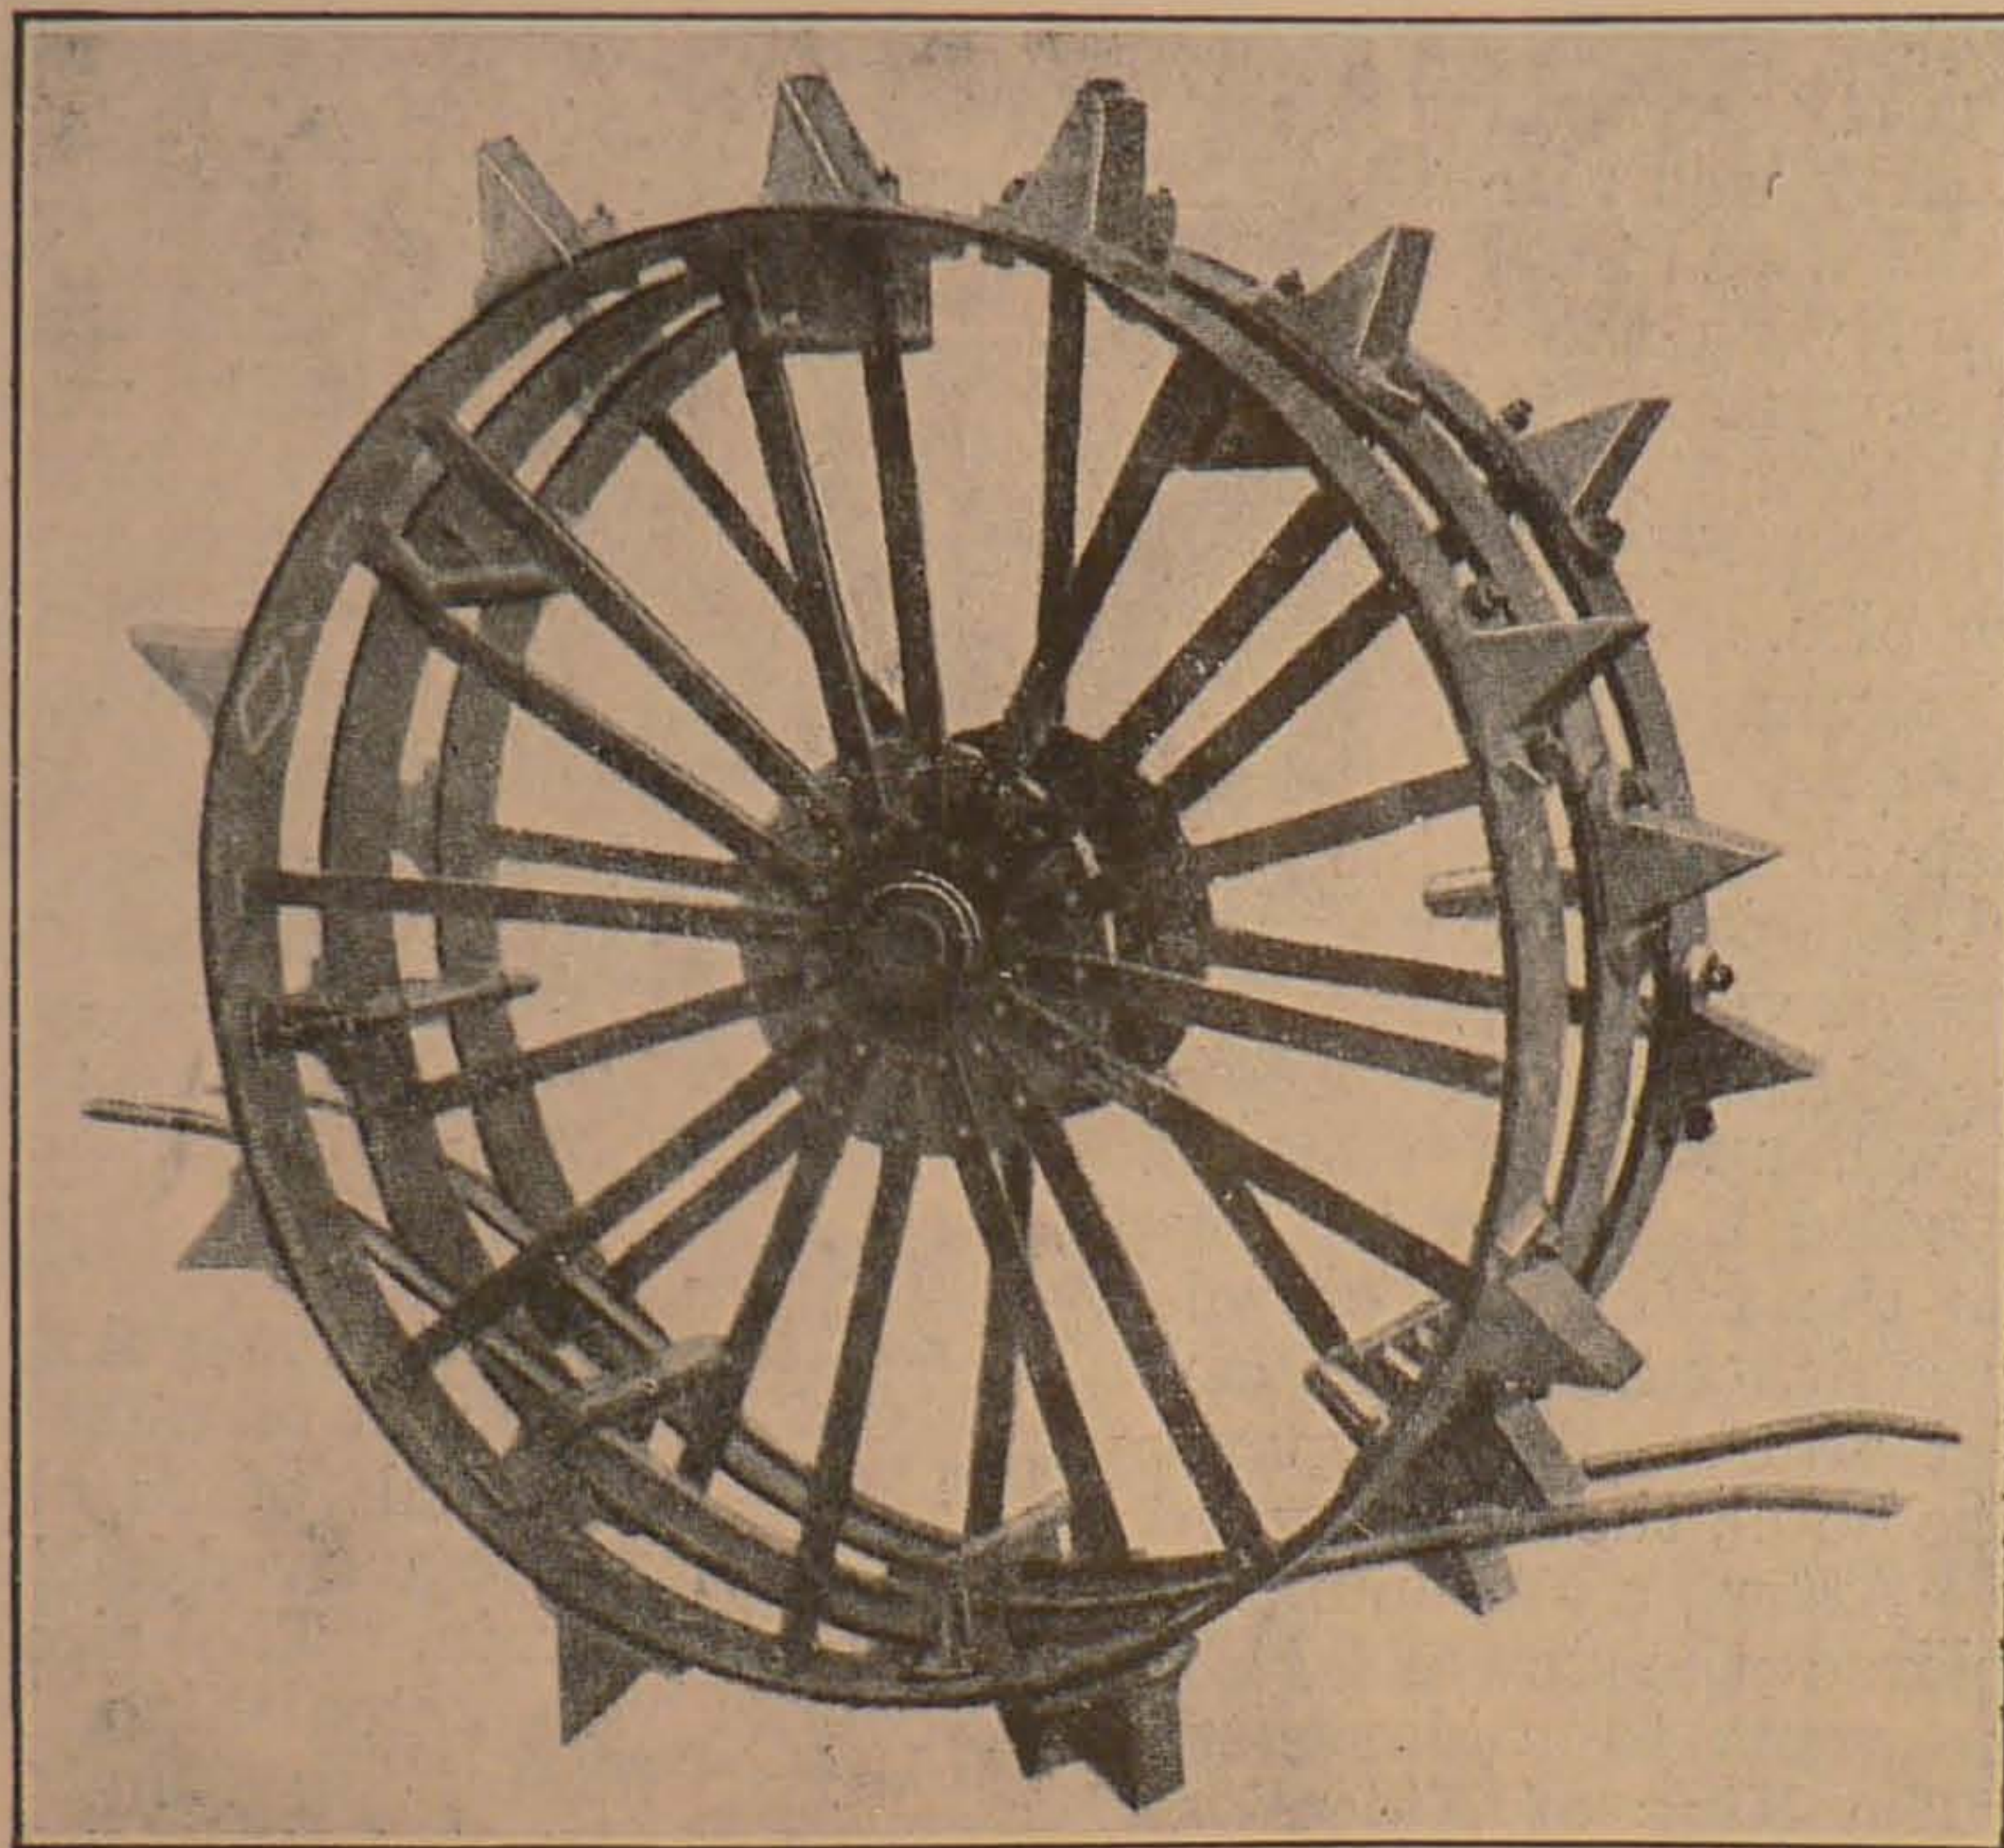

Kendell-James patent Wheel

AS FITTED TO THE

VICKERS 23-40 h.p. TRACTOR

An Australian Invention.

Makes extension wheels and heavy grips an unnecessary expense.

Totally eliminates slippage, maintaining full drawbar efficiency.

Will work on any condition of soil surface.

The VICKERS 23/40 H.P. ENGINE and Sturdy Frame, coupled with the PATENT REAR WHEELS, offer to the farmer a power unit capable of being used in all weathers, without the wheel slipping through soil adhesion or packing of the soil.

All Working Parts Totally Enclosed against Dust or Grit.

Special Oil Scraper Rings fitted to each Piston to ensure Perfect Lubrication and low Oil Consumption.

Fitted with a Thermometer, and Adjustable Blind for Controlling Water Temperature

All Parts of the Engine Automatically Lubricated.

FURTHER PARTICULARS FROM

ELDER SMITH & CO., LIMITED, Sole Agents

ADELAIDE AND COUNTRY BRANCHES

In conclusion, we would like to express our appreciation of Mr. Baker's part in making the trip the success it undoubtedly was.

SECOND FOOTBALL TEAM.

The second XVIII. was reformed this year, after having missed last season. We started late in the year, and were only able to take part in the second and third rounds of matches in the Gawler B Grade Association.

A practice match against Wasleys was played on the College Oval, and the former proved a little too strong for our team, the scores being 6-4 to 3-4.

The Association matches and results were:—College v. Willaston (at College)—Willaston, 8-4; College, 4-7. College v. Roseworthy (at Roseworthy)—Roseworthy, 4-11; College, 3-5. College v. Centrals (at College)—Centrals 6-6; College, 5-3. College v. Rovers (at College)—College, 14-24; Rovers, 2-2. College v. Souths (at Gawler)—Souths, 5-3; College, 3-5. College v. Roseworthy (at College)—Roseworthy, 4-7; College, 4-6. College v. Rovers (College forfeited). College v. Centrals (at Gawler)—Centrals, 8-12; College, nil. College v. Souths (at Gawler)—College, 3-6; Souths, 2-3.

The most consistent players for the season have been Kitto, Wiese, W. Young, Oppatt, Gerkin, Geddes, Prider. Goal kickers—Jones (10), Gerken (8), Couche (6), Soward (5), Prider (2), Kimber (1), Gilbert (1).

LIVESTOCK NOTES.

The cows under official test under the supervision of Mr. Baker have done well to gain fourth position in the herd averages. Considering that the herd is composed of four two year olds and four three year olds, and three mature cows, the herd average of 382.61 lbs. butterfat (without allowances for age as provided for in rules) is an excellent one.

The performance of Roseworthy Erudite is outstanding. She has produced 575.74 lbs. of butterfat in 273 days, with an average test of 7.64 per cent. This is believed to be a State record for the Jersey breed.

Dawkins 3rd of Turretfield produced 606 lbs. of fat in 273 days with an average test of 6.95 per cent.

Some interesting data has been gained from pigfeeding tests carried out under the supervision of Mr. Morrow. The best results were from the vitamine test. The pigs were fed on milk, pollard, barley, fishoil and greens, and averaged 1.2 lbs. per day increase over 98 days, as compared with .44 lbs. per day average on pigs on open grazing, plus barley, over the same period. The highest individual gain was also from the vitamine test, the gain being two and a quarter lbs. per day over a period of 14 days.

Good results were obtained from pigs fed on milk, pollard and barley; milk, pollard and peas; milk, pollard and wheat.

An exhibit from these pigs, consisting of four sides of Colonial bacon suitable for the London market, is to be staged under the supervision of the Agent General's Department at the British Dairy Farmer's Associations' Fiftieth Annual Dairy Show, to be held in the Royal Agricultural Hall, London, from October 23rd to 26th, 1928.

The first batch of fat lambs (200) in connection with the Breeding Experiments was sent away recently. Of these, 197 carcasses were passed as suitable for export, the three being rejected on account of bruising. The net weight of these was 7,381 lbs., giving an average carcass weight of 36.94 lbs.

The grading of the export carcasses was: 1st Grade (Cross Keys) 140; 2nd grade (Austral) 51; 3rd grade (Curlew) 6.

The top weight was 101 lbs from a Dorset Horn on Border Leicester x Merino.

The outstanding achievement for fowls is by a Black Orpington hen, which in 104 days has laid 102 eggs. It went through June and July without missing, and missed only one day in August. A fawn and white duck has laid 31 eggs for August. Both birds are going well at the time of writing.

ROSEWORTHY OLD COLLEGIANS ASSN.

We deeply regret having to record the following deaths in the ranks of Old Students:

M. J. Shenton, (1916) died some time ago in W.A. from T.B.

G. H. Giles (1894), formerly town gardener, at Port Pirie, died at his residence, Port Pirie West, on July 11th. Deceased who was 55 years of age, was born in the Mount Pleasant district. He was a contemporary of Senator A. W. Robinson, but his bent was rather in the way of floriculture than agriculture.

For a period he resided at Broken Hill, and at one time was on the staff of the Tramway Company there. Later he was engaged by the Broken Hill City Council as town gardener and afterwards accepted a similar position at Port Pirie. The valuable services rendered by him in that capacity were acknowledged by his employers and the rate-payers generally, while his assistance to the Amateur Gardeners' Society and to the residents who sought his expert advice, was much appreciated. He was respected and esteemed by all who knew him. For some years, rheumatism had made him a permanent invalid. He has left a widow and five children.

This is the old student to whom the Association, has twice rendered financial assistance.

J. H. Haslam, at one time House Master at the College, died just recently at his residence in Adelaide. Mr. Haslam was an associate member of the Association, and at the time of his death, was Principal of King's College, Adelaide. He left a widow and two children.

H. E. Sibley (1910-12). After leaving Roseworthy he was appointed assistant orchardist at Blackwood from where he enlisted and on returning he was employed in the motor accessories department, of Harris Scarfe. A few years ago he commenced in a similar lines of business on his own account under the name of H. E. Sibley & Co. but had been ill for some considerable time and he passed away late in September of this year.

We also deeply regret having to record the death of Mrs. H. C. Pritchard, wife of the late Housemaster and Secretary of the College. I am sure all old students will extend to him their deepest sympathy.

We note many changes in the personnel of the College Staff.

R. J. Wilson (1921), the popular Farm Superintendent is holding a similar position at Muresk, the W.A. Agricultural College. Dick held the appointment only for a short time, but during that period he clearly demonstrated that he possessed a natural aptitude for the duties demanded by that position. Under his capable supervision, the farm was considerably improved, and his prompt and effective handling of seeding and harvest operations was a revelation. The W.A. institution is indeed fortunate in obtaining such an energetic and capable man for the job.

F. H. Clifton (1921), Assistant Farm Superintendent, has left us to follow dairying pursuits in W.A.

A. B. Cashmore (1924), is following in W. V. Ludbrook's footsteps in that he has resigned his position as Cerealist in order to continue his studies at the 'Varsity for his B. Sc. (Agric.) course.

R. J. Hill (1886) Director of the firm James Hill & Sons, merchants, Pirie street.

W. H. Clark (1886) Sharebroker at 362 Collins Street, Melbourne.

J. C. Wannock (1887) Farming at Mt. Backer, W.A.

C. E. Moore (1888) Has a grazing property at Weldsgift, Upper Capel, W. A.

W. Eimer (1889) Farming near Glen Innes, N.S.W.

H. M. Giles (1889) Orchardist, Woodside.

F. S. Wight (1890) Clerk of the District Council at Mannum.

S. K. Harvey (1891) An Official of the Department of Mines and Industries, Pretoria, South Africa.

Adelaide Chemical & Fertiliser Co.

CURRIE STREET ADELAIDE

J. A. Borthwick (1891) Possesses the Mamunda Sheep Station at Kouppio, Pt. Lincoln.

H. H. Nickels (1892) Farming at Forreston, near Gumeracha.

C. F. Heyne (1892) Nursery and seedsman at Summerton.

W. H. Hay (1893) Farming at Bordertown.

G. H. Lockyer (1895) Farming in the Curramulka district.

J. H. P. Davis (1896) Auctioneer for Bennett and Fisher.

W. Patrick (1896) Possesses a property at Northampton, in W.A.

A. H. Bills (1897) Left Roseworthy in 1899 and spent four months wool classing on Gum Creek and Hill Ranch sheep stations. Later worked in a flour mill at Laura for 12 months, and in October 1900 transferred to a chaff and grain store at Broken Hill. After six years as manager of same, went into business on his own account in the same line as an agent of a flour mill in S.A. and is still thus engaged.

Still carries pleasant memories of Roseworthy, and would be pleased to meet at any time old boys who may be visiting the Barrier.

T. M. Rowe (1889) Sergeant in the Police Force stationed at Balaklava.

A. C. Smith (1898) Vinegrowing at Angaston.

H. L. Pearse (1899) A member of the firm of T. H. Pearse & Sons, Ltd., Gums Station, Florieton, and of the Yundamindra Pastoral Co., Ltd., owner of Yundamindra and Mount Celia stations, 120 miles N.E. of Kalgoorlie, W.A., where they have 2,000 head cattle, 40,000 head of sheep, and hope to increase the latter to 50,000.

N. H. Pearse (1899). Same particulars apply as above, also still interested in racing. President of the Burra R. C., Chairman of the Eudunda R.C., and steward of several country clubs.

G. M. Black (1900) Prominently associated with Agricultural affairs at Gladstone. Is developing a property on the Gladstone to Laura main road. He is a particularly live member of

the local branch of the Agricultural Branch.

R. Hayward (1900) On the land in W.A.

E. R. Seppelt (1901) Blacksmith and general mechanic at Keith.

L. N. Sprod (1901) Agent, residing at Magill road, North Kensington.

P. H. Pickering (1902) Dairying at Mypolonga.

R. L. Beddome (1903) Wool agent for Elder Smith & Co.

R. A. Mills (1903) Has a farm at Carpa, on the West Coast.

W. M. Baily (1904) The owner of a holding in the Canowie Belt district. Is making good progress with his mixed farm.

W. L. R. Donnell (1904) Farming at Lammin, W.A.

L. H. Wright (1905) Has a grazing property at Booborowie, included in which is some very fine lucerne country.

W. C. Keany (1905) Partner of the firm of Molloy and Keany, manufacturers agents, carrying business in Rundle Street.

L. S. Davie (1906). Has a property near Kybybolite. Is working hard and growing good clover and wool.

W. Y. Goldsmith (1906) Engaged in sugar cane growing at Innisfail, Q.

E. A. Bristow (1907) The popular manager of the Booborowie Exp. Farm. Is noted throughout his district for the able practical assistance he is willing at all times to give to his neighbours.

H. W. S. Cherry (1907) Manager of the Burma Mines Ltd., Wainta, Burma, India.

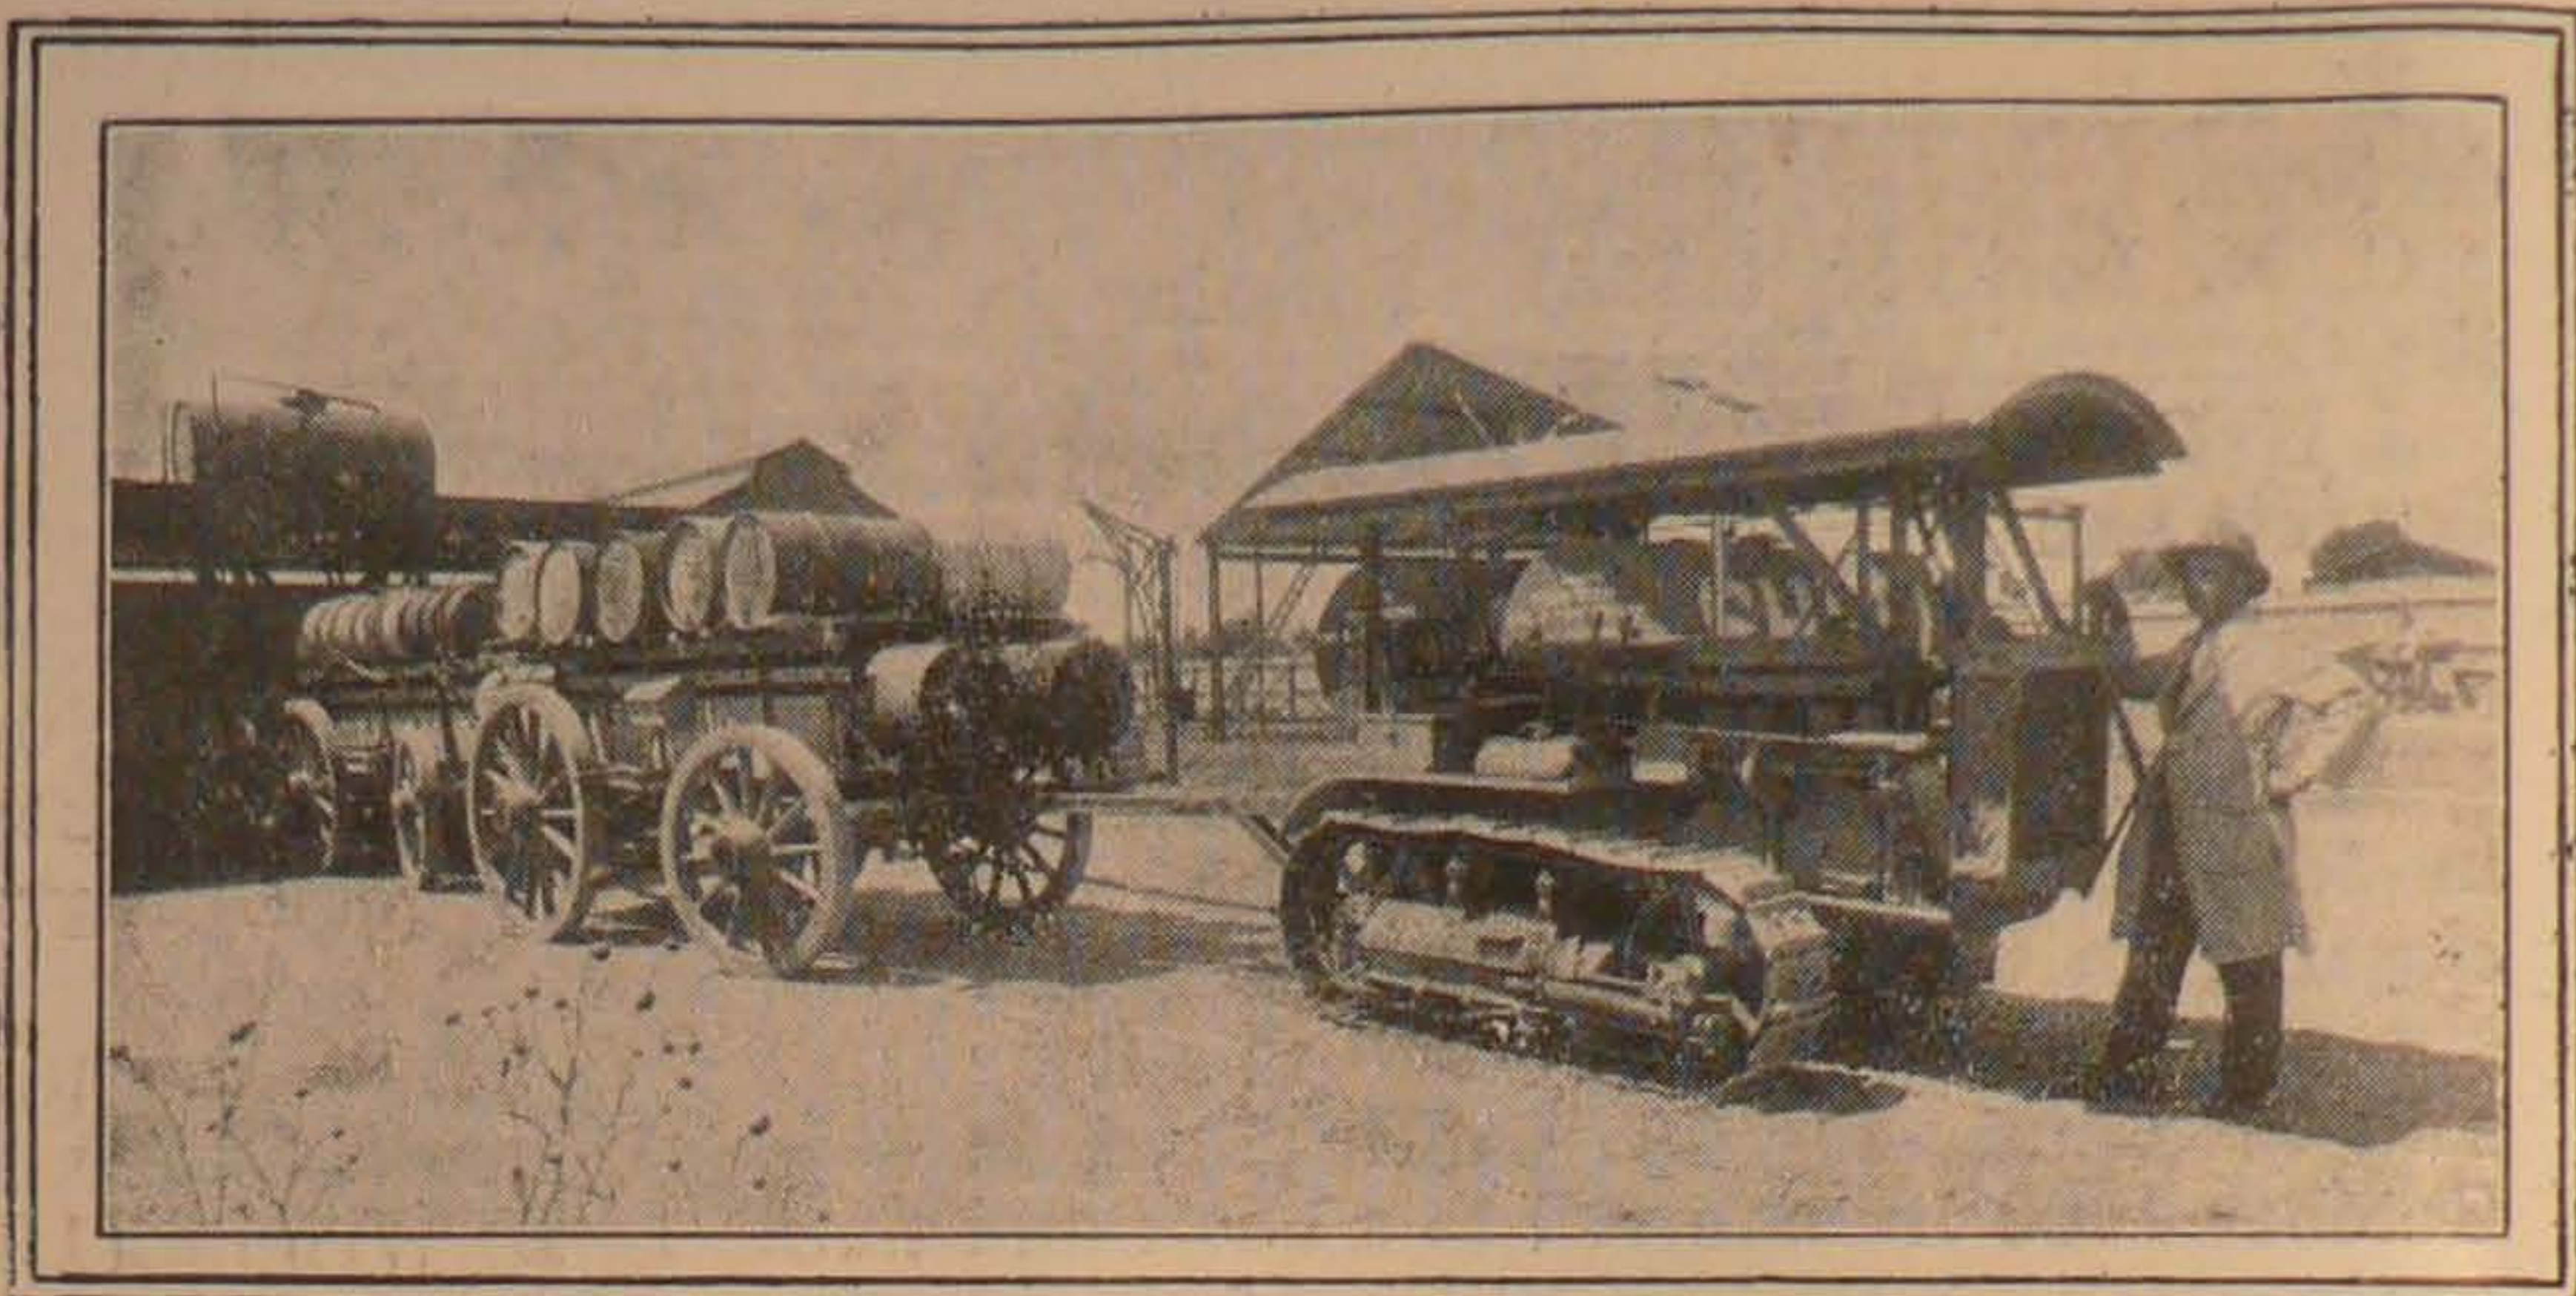

T. R. Welbourne (1908) is farming at Narridy reporting a season bag average for 1927 harvest. He is keenly interested in Jersey cattle, and is getting together a nice herd, though the only fly in "Pat's" ointment regarding the latter, is the absence of a family of daughters.

S. C. Genders (1908) Manager of the Union Bank at Eudunda.

S. H. T. Best (1909) From Melrose. Transferred early in the year with his wife and family to fresh fields and pas-

Confidence

In Cross

Bulk depots have been opened in every State to meet the ever increasing demands for CROSS. These big bulk orders are the visible proof of the confidence farmers have in CROSS. They know by long experience that CROSS is superior for power and economy, and that it can always be relied on for continuous working under heavy loads.

tures new in W.A., taking with them the good wishes of hosts of friends.

B. J. Magarey (1909) A successful grazier in the S.E. at Glengarry. A popular cricketer, and one of the best all-rounders in the S.E.

G. V. Madeley (1910) Farming at Moorak near Mt. Gambier. Had an operation for pleurisy about 18 months ago, and is still far from well.

K. E. Neville (1910) Grazing and wheat growing at Balaklava.

G. R. Webb (1911) After returning from the war was leasing land 20 miles west of Geelong, where he was fat lamb raising. About 18 months ago bought a property at Bannington; Boorcan, in Victoria (1,000 odd acres of 2 sheep to the acre country). At present he is fattening stock on it, breaking the land up and re-sowing to rye grass and sub. clover and planting shelter belts. Hopes to double the carrying capacity and get back to fat lamb raising.

In corresponding, he says:—"My house is on the Princes Highway, 5 miles west of Camperdown, and any Roseworthy men coming this way will meet with a warm welcome."

L. J. Clark (1911) Telowie, through grit and perseverance is rapidly qualifying for membership of the "Sgnattocracy," and that is rough mountainous country, which he was plainly told when taking it up, would not graze a goat.

C. A. W. Russell (1912) On the land at Gibbending, W.A.

J. P. Lewis (1913) Has the Wel-yamto station at Wilcannia.

V. T. O'Grady (1914) Some interesting matter is to hand regarding this old student who died in England during the war. We are indeed indebted to our informant, Mr. M. C. Mannel, another old student in W.A. Mr. Mannel writes as follows:—"When I was in Perth recently I had the pleasure of meeting our old friend, Mr. Colebatch, and during the course of a conversation, mentioned that I had recently been in communication with the Rector of Stratford—Sub

Castle, near Salisbury, England, with a view of having my old friend, Mr. O'Grady's grave there, seen to if necessary, and that I had received from the Rector some post cards of the grave and the church, together with a letter from him. Mr. Colebatch requested me to forward one to you, for inclusion in the Student, and also asked for the Rector's letter, this however I have forwarded to Mrs. O'Grady, of Grange, S.A., and I am sure if you desired, she would forward it to you, so that you could include any portions of interest.

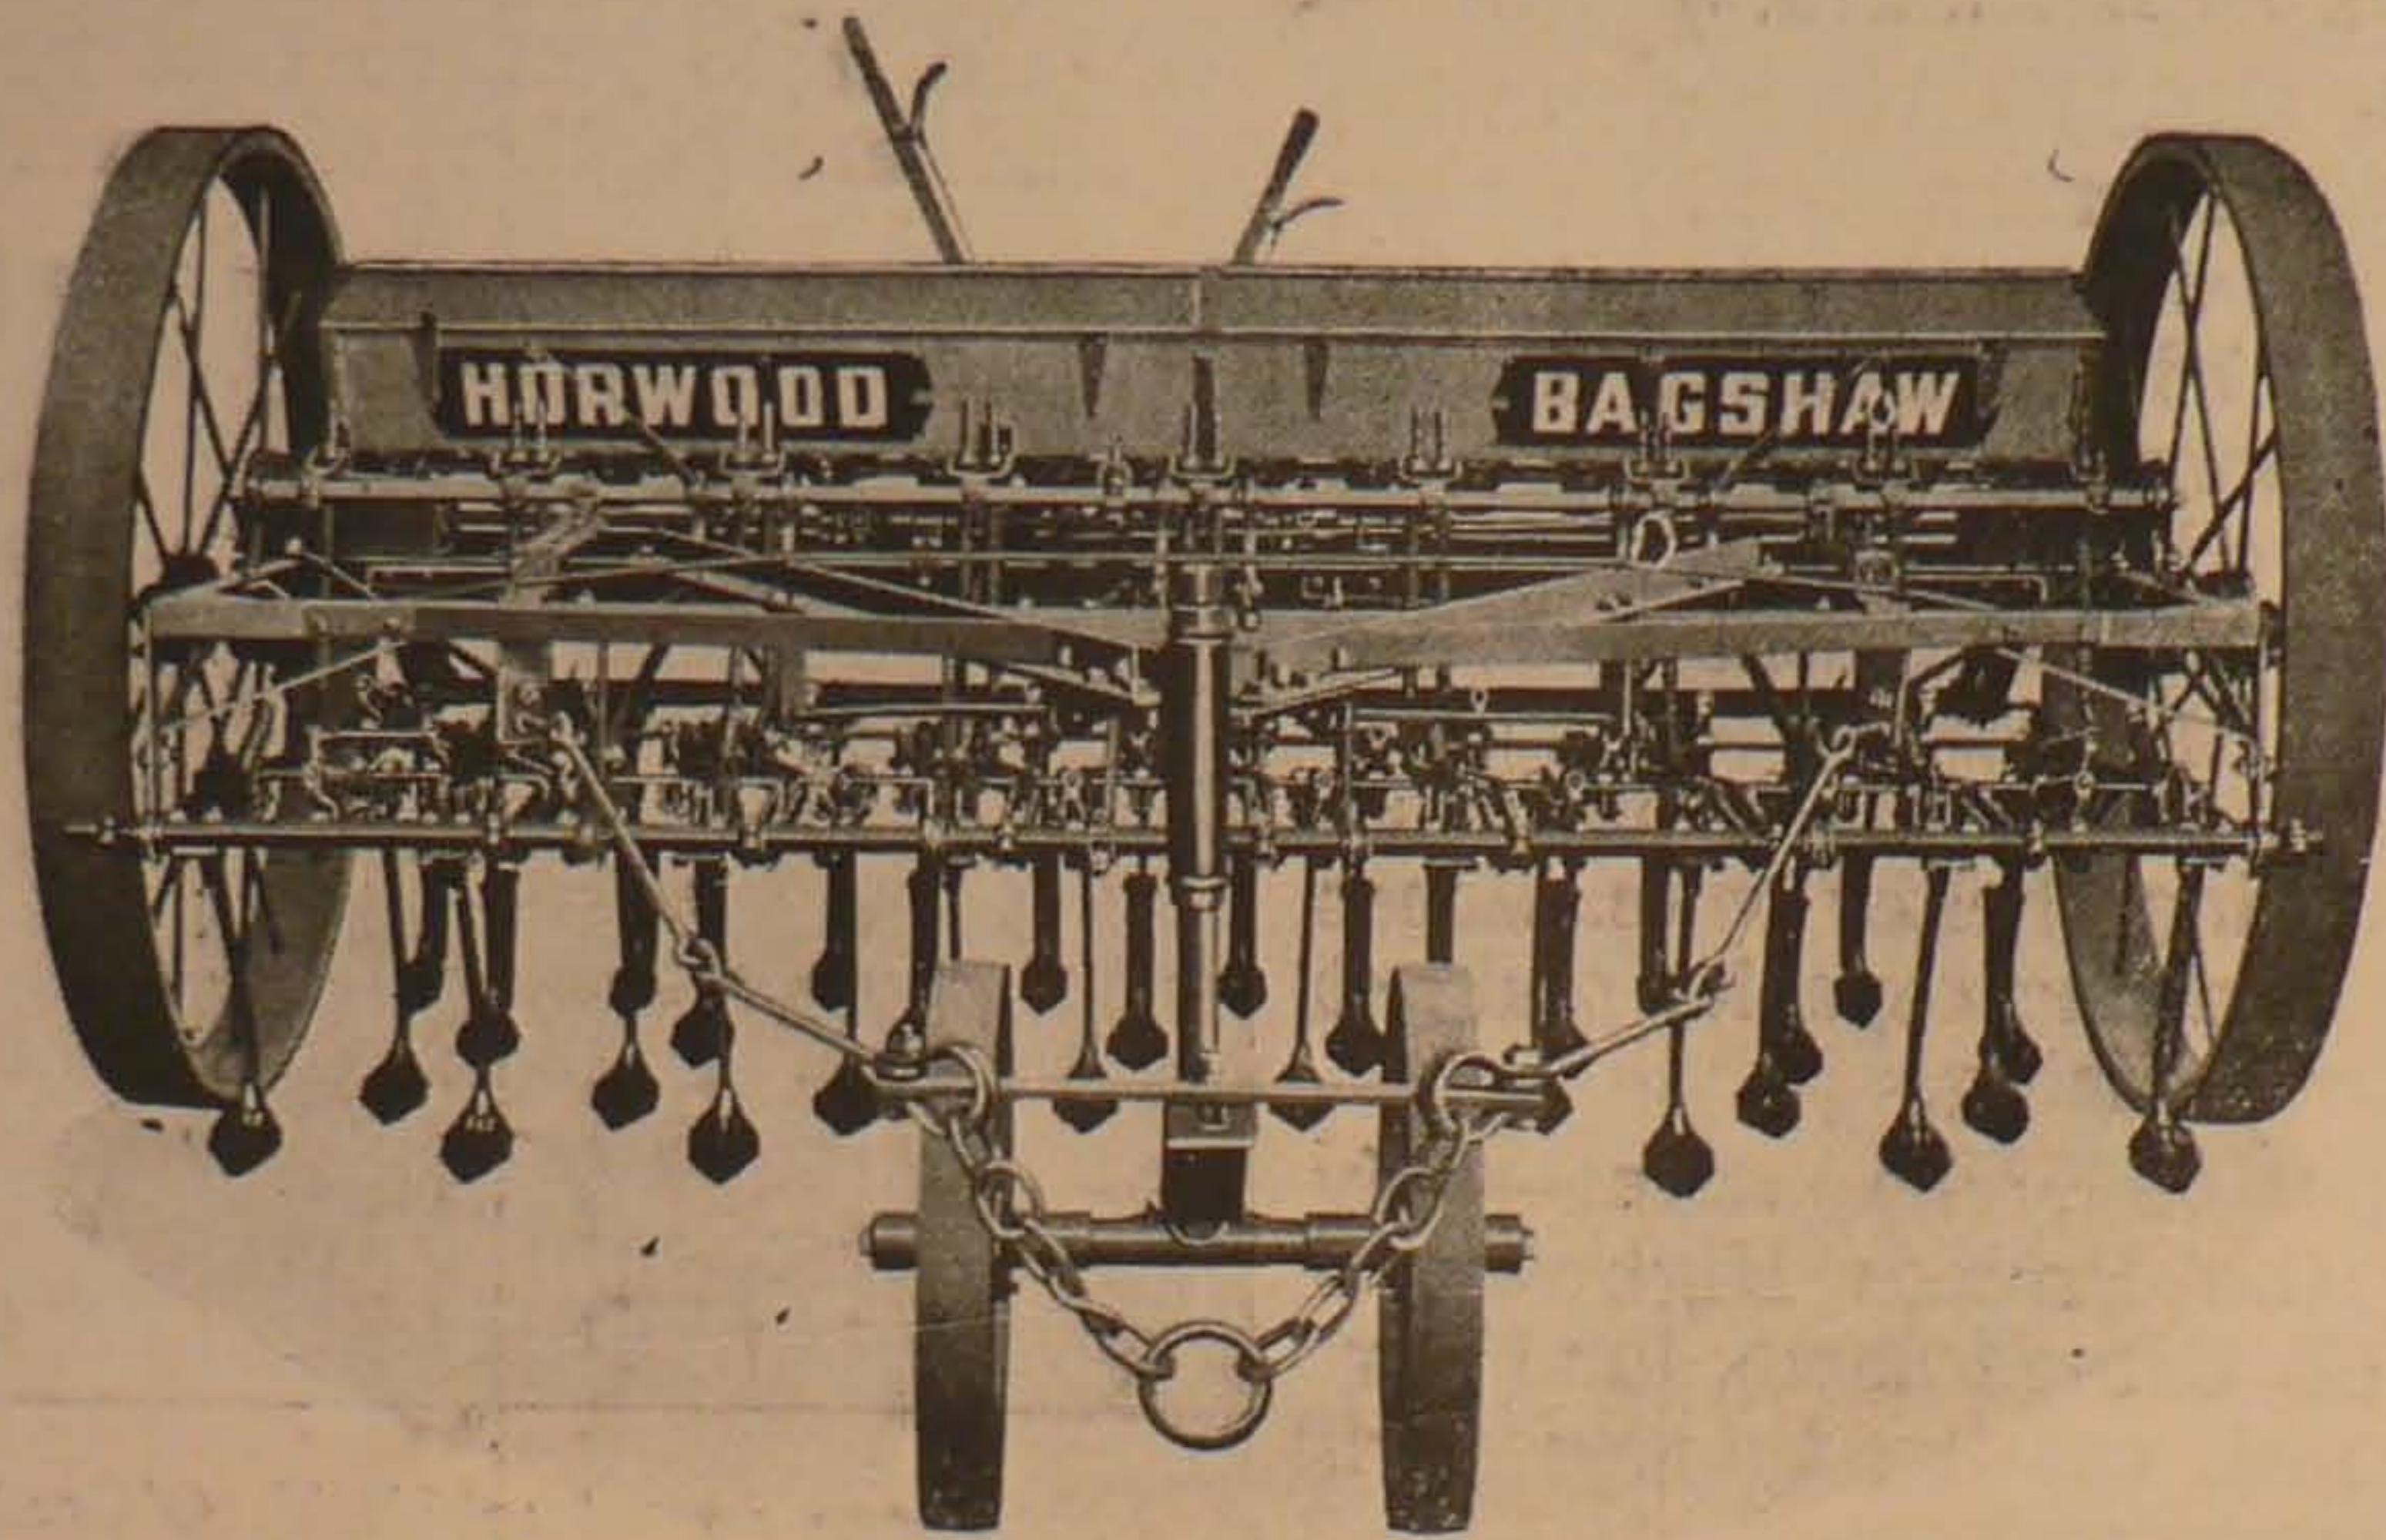

Headstone erected to V. T. O'Grady at Stratford, England.

However, as you will notice in the photo, the headstone was erected by men of his reinforcement, while the official stone is at the foot. The stone curbing was erected by Mrs. O'Grady and the rose bush planted by Vic's Aunt. As the Rector (Rev W. H. Cooke) explains, while the grave looks rather uncared for, such is not the case, the war graves commission attend carefully to the graves, and the unkempt appearance is caused by the fallen leaves, the photo having been taken in the Autumn.

O'Grady's funeral was a full military one, the Eng. Battalion Band from Sutton Veny being sent down to Salisbury while the firing party included his most intimate friends and old Roseworthy men, C. H. Heath, Bob Jacobs, Fred Kuhne, "Liz" North and myself. I am enclosing also a p/c of the church, and one for Mr. Colebatch if you would be kind enough to hand it to him for me.

THE
HORWOOD, BAGSHAW
"Mallee" Combine

*The Ideal Seeding and Cultivating Implement for Rough,
Stumpy, or Sandy Ground.*

AMPLE CLEARANCE LIGHT DRAUGHT

Church at Stratford, England.

Trusting you will be able to reproduce in the next student for the benefit of Vic's old pals.

Yours Sincerely,
Mero. C. Mannel.

North (1914) I would be glad of particulars concerning the death of this old student. Killed in action soon after his arrival in France.

J. O. Robinson (1915) Mixed farming at Meadows. Has a good Ayreshire herd and has imported pedigreed cows from Victoria. Still plays football for the Meadows team.

O. Bowden (1915) Visited the College recently. He is successfully farming at Riverton.

W. G. McNeil (1916) Until recently market gardening at Campbelltown, but owing to his health had to leave the garden and is now connected with the firm of John Martin & Co., Adelaide.

Andrew Nicolson (1917) Is still with his brother on Roopena station, has completed shearing 1,600 sheep, and filled 300 bales of wool. Season promises well this year, but last year registered but 3 inches of rain.

L. W. Engeltrecht (1917) Has a good farm at Mount Gambier.

C. P. Prest (1918) Power farming at Telowie. Is still as good as ever with the willow, and also ever ready to assist the other fellow as indicated by his activities on a deputation recently.

E. J. Hollitt (1919) Has charge of the home farm at Wirrabara, and is credited with an all-round improvement in results therefrom.

M. C. Malone (1919) Recently took possession of a property close to Mt. Gambier, which he obtained under the advances of the graduates act.

G. E. Fairbrother (1920) Gaining experience in the laboratory of W. Reynell & Sons at their cellars at Reynella.

A. R. C. Hocking (1920) Had a successful year last year on his farm at Snowtown. Married just recently to a Snowtown girl.

G. W. Dunn (1921). Has a farm about 20 miles west of Pt. Lincoln. It consists of 800 acres cleared, and 425 acres uncleared. 450 acres are sown to sub. clover, 300 acres to oats. At present carrying 700 sheep, and is still increasing.

C. O. Graham (1921) Is farming in the Melrose district, growing mainly wheat. Is still a factor to be reckoned with in the Jersey classes at local shows.

L. T. Hayward (1925) Is getting first class experience as manager of a station at McCoy's Well.

K. F. Collins (1925) At present working his father's farm at Mt. Gambier, hopes next year to get the assistance of the Land Graduates Act in acquiring a grazing proposition.

I take this opportunity of thanking those who have so kindly assisted by contributing information for these notes and it is to be hoped that a great number more will follow their good example.

The Annual Re-union Dinner of the Association will be held at Covent Garden, King William Street, Adelaide on September 13th at 7.30 p.m., and the Annual Meeting just prior to the Dinner. It is the desire of the President (Mr. W. J. Spafford) and the Committee that as many as possible will attend this popular function.

Any old student, whether a member or non-member of the Association is always welcome to attend, but he should give me some intimation of his intention of being present.

J. L. Williams,

Hon. Sec.

Well!! as for me-e
I'd sooner have
a cup of *Wood Son's Tea*
