In return to Camp life, necessitated by exhaustion of income is responsible for the unclassification of 24 folios - reprints etc. of others are mainly on Aborigine matters. In absence from office & the typists' need of my presence - makes these folios a mixed bag of native data - but I have left it, as failing eyesight prevented me from the classification of the contents of my notebooks etc. & their proper places in the Types & Classified matter which was re-typed with his office book
