SCIENTIFIC RESEARCH.

In June, 1926, the Commonwealth Parliament set aside a sum of £100,000, to establish a Science and Industry Endowment Fund, under the control of trustees, who are the members of the executive committee of the council for scientific and industrial research. The income from the fund is used to provide assistance:—(a) to persons actually engaged in scientific research, and (b) in the training of scientific research students. The total income from the fund is about £5,200 per annum, of which about £4,000 is devoted to the training of students in scientific research and £1,200 to grants to research workers. Already a number of students have been sent abroad, including three entomologists, two in forest products work, two in the problems of sugar and cold storage problems and plant pathology. The trustees have recently considered applications for research work, and have made grants to the following:—Mr. H. B. Williamson (East Malvern, for botanical field work; Mr. J. Turnbull, B.Sc., LL.B., Ivanhoe, for physiographical work in the Port Phillip district; Miss L. M. Newman, B.Sc., Hawthorn, for geological investigations; Mr. A. H. S. Lucas, M.A., B.Sc., Sydney, for botanical work in connection with Australian seaweeds; Messrs. P. S. Allen, B.C.E., and A. R. Moon, B.A., B.C.E., (Camberwell, for research on electric welding of joints in steel structures; Professor B. D. Steele (Brisbane), for chemical research; Dr. T. G. H. Jones (Brisbane University), for chemical research; Mr. J. G. Wood, B.Sc., (Adelaide University), for research on plant physiology, &c.; Dr. W. Davies (department of agriculture, University of Melbourne), for chemical research; Mr. W. Pennycuick (Adelaide University), for chemical research; Mr. E. E. Kurth (University of Tasmania), for research in oil shales; Mr. H. R. Marston (Adelaide University), for bio-chemical research; Professor A. McAulay (University of Tasmania), for research on the corrosion of iron; Dr. J. R. Pound, School of Mines, Ballarat, for research on the properties of liquids.
