

RECIPIENTS OF DISEASE

reason why Dr. Hone says notification is... while we say that notification is the first and most vital step in preventive medicine.

Lecture by Dr. Goodrich

The Physics Theatre at the Adelaide University was filled on Friday evening for a lecture by Dr. Goodrich on the subject of the "American Labour Movement."

Australian System Criticised

Dr. Frank Hone, lecturer in clinical and preventive medicine, Adelaide University, read a paper before the Australian Association for the Advancement of Science on "Notification as prevention."

In referring to the conditions of labour in Australia and America, the professor said he wished to call attention to the fact that the conditions here are such that the one country could be applied to the other.

The frontier of the Australian labour movement is still in the infancy stage. The frontier of the American labour movement is in the maturity stage.

VIOLIN TEACHING.

LECTURE BY MR. CHARLES SCHILSKY.

At the Elder Conservatorium on Friday evening, Mr. Charles Schilsky gave a valuable lecture on "Violin Teaching."

The speaker stressed a point important in violin teaching in general. In music study, he said, it is necessary to study the psychology secondly.

The speaker dealt with staccato, spiccato, and tremolo bowing. It was difficult, he said, to play chords, marked forte for the violin.

At a meeting of the council of the School of Mines on Monday, after dinner...

VIOLIN TECHNIQUE.

ADVICE TO TEACHERS.

The final lecture of the series arranged by the Australian Music Examination Board for teachers of music was given in the Concert Hall last night by Mr. Charles Schilsky.

Mr. Schilsky said although the physical formation of the student had to be taken into consideration certain principles were to be able to look down the finger board.

The student should place his chin on the chin holder in such a way as to be able to look down the finger board.
